

10-20-2017

To The members of the GLA,  
I'd like to share my  
experiences with a current GLA  
board member that is running for  
Re-election.

Kevin Newby has harassed  
me and my sub contractors from  
the beginning of my project review  
process. He has lied about my  
intended use and distorted facts  
to the GLA board to stop  
approval of my project.

He has tried to bully me  
and other landowners.

Kevin Newby uses his

Q2

board position to harass and threaten landowners with a "cease and desist" order based on misinformation. Threats of law suits and spending money on attorney fees is how he likes to represent SG landowners.

The former head of Park County Health Dept. told Kevin Newby if he came back to the office and harassed her and the employees she would have him arrested by the police!

I personally had to call the

③

Sheriff and file a trespassing case against Kevin Newby. The sheriff told him if he came onto my property again he would be arrested for criminal trespassing.

Kevin Newby continues to try and stop me and bully landowners.

It's hard enough to build a home, and very stressful without harassment from Kevin Newby.

He believes the board should micro manage every homeowner and building project.

(4)

For the sake of community  
spirit, I ASK each one of you  
NOT to re-elect Kevin Newby.

Thank you for your time,

Robert E. Buchanan
