Winter Wear

Kucharik Collapsible

Windbreaker

High-tech outer wear for the serious cyclist. Finely crafted from Dupont Supplex®; "the softer nylon that's ounce-for-ounce stronger than steel". This remarkable fabric combines superior moisture wicking ability, soft-

ness, and stain resistance with the incredible abrasion and puncture resistance of nylon. Great for mountain biking. Wind and water resistant front and rear with polypro/lycra sides for extra ventilation. Reflective rear stripe for nighttime safety. Large, zippered rear pocket.. Elasticized waist with long cut back to prevent riding up and drafts. Full length front zipper. Best of all, the entire jacket reverses into an integral fanny pack for easy, on-the-go storage. Available Sm-XL. Made in the U.S.A.

Remember to order one size larger if you plan on layering.

Kucharik Thermal Tee Undershirt

This high-tech, 100% polypropylene long sleeve tee will help keep you warm in the harshest of conditions. The combination of polypro's superior moisture wicking characteristics, and its ability to retain heat without requiring thickness, makes it the best choice for your inner layer. Perfect for skiing, cycling, walking, or any outdoor activity that puts you in contact with the cold. Machine wash and dry gentle with Cafe Suds. White. Available in Med-XL. Made in the U.S.A.

KU-TT-(size)

\$19.88

Kucharik Cold Weather Vest

A perfect way to stay toasty warm on those chilly days. Extra-thick polypro lined vest has a abrasive resistant and windproof nylon front to prevent chilling drafts. Polypro back provides excellent breathability. Full zipper front with large, rear zippered pocket. Knitted collar, cut long in the rear with elasticized bottom keeps it from riding up. Reflective back stripe for nighttime safety. Great for mountain biking where extra warmth and agility are essential. Available in Sm-XL. Machine wash and dry with Cafe Suds. Made in the U.S.A.

KU-SV-(color,size) \$39.88

Colors: Blue w/gray back

Kucharik ATB Cycling

Tights

Superior cool weather protection for any cyclist. Extra tough nylon/lycra exterior is completely windproof and abrasion resistant. Inside, brushed polypro provides a soft contact surface with your skin, wicks away moisture and traps your body's heat for efficient cold weather protection. Six panel tights are contour cut to conform to the movements and positioning of road or mountain bikers. Elasticized waist and cuffs for a perfect fit. Wash and dry with Cafe Suds. Available in Sm-XL. Black. Made in the U.S.A.

Cafe Bib Tights

Full length bib tights are exceptionally warm and allow full freedom of movement. Thick, 10 ounce Solar lycra blocks the wind and rapidly absorbs sunlight assuring you of superior warmth and comfort. High cut back prevents drafts, cramps, and tight muscles. Soft, well padded extra large synthetic chamois can be easily and permanently removed so you can wear these skiing, running, or walking. Cut long; legs may be rolled up for extra warmth. Rated to 25 degrees. Machine wash and dry with Cafe Suds. Black. Made in the U.S.A. Sm, - XL

CA-BT-(size) \$49.88

Cool Weather Wear

A- Cafe Iditarod Power Stretch Vest

Essential layering wear for the outdoor enthusiast. This four-way stretch vest can be worn alone or as an undergarment for more effective layering. Features sleeveless design for exceptional dexterity and Polartec fabric for exceptional moisture wicking

warmth. Sm, Med, Lg, XL Rated to 10°. Made in the U.S.A.

CA-ID-PSV(size) \$29.88

B- Cafe Iditarod Balaclava

Funny name, ingenious design. Perfect where a headband or face mask alone does not offer enough protection. Provides excellent protection and breathability, using Solar Lycra & Fleece. Will fit under most helmets and can be worn in conjunction with a face mask for ultimate cold-weather protection. Special wide cut design allows for good peripheral vision. Warm and wind-proof, rated to 5°. Black. One size fits all. Made in the U.S.A.

CA-ID-BV \$19.88

C- Iditarod Fleece Headband

This is the best designed and warmest winter headband we have ever used. It easily tucks under a helmet and effortlessly stays in place. The soft fleece feels great next to your skin and is always dry and warm. Wide ear patches keep those horns warm without any loss of hearing. Black, blue, or purple. Sm/Md or Lg/XL(match to helmet size). Rated to 25°. USA.

CA-ID-HB(color,size) \$5.88

Cafe Iditarod Gloves

Full fingered comfort and exceptional dexterity are hallmarks of this fine winter glove. Soft, Solar Lycra & Fleece will keep your hands toasty warm. Ergonomically designed for maximum freedom of movement. High cut, elasticized, draft proof cuffs. Leather palms and forefingers afford a superb grip. Absorbent terry cloth back panel.

Machine wash and dry. Rated to 25°. Black. Sm-XL. Made in the U.S.A.

CA-ID-G(size) \$29.88

Cafe Iditarod Mittens

Excellent for hard to warm hands or exceptionally cold weather. Extra-thick to effectively protect your hands from numbing cold, even down to the single digits. Separate forefinger adds dexterity. Coated palm and thumb offer a superb grip, even when wet. High cut, draft proof cuff pulls over your jersey or jacket. Rated to 5°. Black or Blue. Sm-Lg. Made in the U.S.A.

Cafe Wonderspun Socks

Finest Materials...

The best socks start with the finest fibers. Cafe uses only premium blends of rayon, nylon polyester, spandex, Dupont Coolmax, and Thermax. All of their fibers are produced to demanding specifications and made in America.

Proven Blends...

Through extensive product testing and development Cafe has created an optimal blend of fibers for almost every usage. Cafe socks have been proven in the worlds harshest environments and most demanding applications.

You are in good company...

World class athletes have used Cafe socks to ski across Antarctica, climb Mt. Everest, cycle the Tour de France, and run in every major marathon in America. One of the worlds finest long distance runners, Sarah Fulcher, wore Wonderspun socks in her recent 11,000 mile run around the perimeter of the United States.

Wonderspun Yarns...

Our unique blends of fibers are perfectly spun into Wonderspun yarn. This exclusive process is so technologically superior that it is patented. Called Wonderspun, it allows individual fibers to be bundled together rather than twisted. Groups of fiber are wrapped in more fibers to form long, smooth, flexible strands of yarn. Ordinary manufacturing processes simply twist the fibers together like rope, creating a rough, bumpy texture. In time and with wear twisted fibers tighten, causing them to harden and fray. Wonderspun yarns remain soft, smooth, and comfortable for years. Because Wonderspun fibers are woven parallel, they also possess superior wicking ability.

Sock Sizing Chart

Shoe Size:	You Need Sock Size
Ladies' 7 1/2 - 10	9-11
Men's 9 1/2 or smaller	9-11
Men's 10+	10-13

Different fiber blends and their uses...

Rayon/Nylon-Rayon is made from cotton and tree fiber. It has twice the absorbency of cotton and four times the absorbency of polyester. Rayon feels soft and smooth much like silk. Combined with nylon it is long wearing and exceptionally comfortable.

Dupont Coolmax-Dupont adds a special rhombohedral shaped texture to ordinary polyester fibers to increase their moisture wicking ability. Coolmax also has good loft and excellent shock absorbing abilities.

Dupont Thermax-Like Coolmax this polyester fiber is rhombohedral in shape and provides good moisture transport. Thermax fibers are also hollow to provide extra insulation. They provide exceptional loft for extra warmth and shock absorption.

Team Headbands & Socks

Cafe Team Headbands

Headbands are a must for any strenuous activity. Cafe deluxe headbands are extra thick to absorb up to five times their weight in perspiration. Soft, hypo-allergenic, and cotton lined for exceptional comfort. Prevents blurred vision, eye irritation, and bicycle corrosion due to salty perspiration. Easily fits under most helmets. One size fits all. Machine wash and dry with Cafe Suds. Made in Colombia.

ATB & Road Frames

Iron Horse

Race Frames

At Iron Horse, their race program is responsible for the energy found in all their bikes. When they hit the circuit, their team riders achieve winning results and gain cutting edge knowledge. The team relays valuable information directly to Iron Horse engineers. The race team travels the world, constantly competing, to promote the growth and improve respect for mountain biking. Each of their top-notch athletes participates in rider clinics that teach cycling skills, safety tips, and training methods. This hands-on approach to research gives Iron Horse the advantage to build the fastest and strongest bikes around.

FS Works Full Suspension

The FS Works has blasted into the mountain bike scene with one thing in mind, winning. To achieve this goal, Iron Horse designed their suspension system to absorb all the bumps, keeping you on the ground and in control. On the front, this bike features the Marzocchi 500 air/oil damping, pressure adjustable suspension fork. These forks are the lightest yet, with amazingly fast and clean rebound. The non-active rear suspension system also uses a Marzocchi air/oil adjustable shock with a specially designed aluminum swing-arm. This design gives you the maximum pedal-to-wheel power transfer without fishtailing or a "bio-pace" feel. All this is connected to an ultra high-tech aluminum frame with oversized tubes and race proven geometry.

Frame: Custom oversize 7000 series aluminum with adjustable air/oil shock-7.5lbs.

Sizes: 17, 18, 19.5"

Fork: Marzocchi XC500 adjustable air/oil- 3.75lbs.

Colors: Polished aluminum with blue or purple swing arm and fork

Road Logic

-Ritchey Road Logic OS Prestige tubing

-TIG-Welded

-Logic Prestige fork with investment cast uncrown

-Average weight 3.7lbs.(frame), 1.2lbs.(fork)

Ritchey's Road Logic frames have crossed many finish lines first under the legs of the Performance/Ritchey Team and numerous other U.S. National Team riders like Bobby Julich and Shari Rogers. The TIG-welded, oversized Logic Prestige tubing gives this frame its amazing light and responsive feel. Tom's investment cast uncrown fork is both beautiful and functional. Available from 48-62cm. in two cm. increments. Ritchey Team Red

RI-RB-RL(size) frame only \$995.88

Road Classic

-Ritchey Road Logic OS Prestige tubing

-Fillet brazed

-Logic Prestige fork with investment cast uncrown

-Average weight 3.7lbs.(frame), 1.2lbs.(fork)

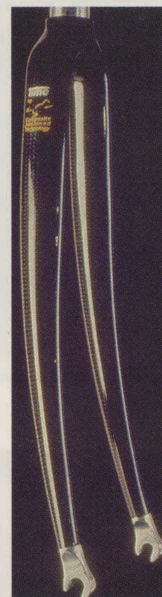

-Handbuilt by Tom Ritchey

If you ever catch Tom Ritchey bombing down Crazy Pete's trail, he's most likely on his red road bike with chunks of grass and mud clinging to the skewers and derailleur. No, he's not stupid. He's just testing out the Road Classics durability in a place better suited for mountain goats than ultra-light road bikes. This fillet brazed road frame uses Logic Prestige tubing to keep the weight to a minimum. The smooth lines of the uncrown fork compliments the elegant lines of the fillet frame joints. Available from 48-62cm. in two cm. increments. Ritchey Team Red.

Time Helix Road Frame

The bottom line in high performance technology and innovation. Time has overcome the excessive rigidity of older carbon frames, perfectly balancing performance and comfort. Using carbon, which has the highest strength-to-weight ratio of any frame material, Time custom shapes three function-specific tubes using an innovative new manufacturing process. The asymmetrically shaped tubes provide tremendous responsiveness due to high lateral rigidity, and a surprising amount of comfort. The extremely rigid rear triangle provides incredible power transfer and braking stability. Rear drop-outs are detachable for easy crash repair. Best of all Time uses a special combination of mechanical and chemical processes to insure reliable tube-to-lug connections. Comes with a custom integrated headset that is waterproof and easily serviceable. Available in 49-60cm. Natural carbon/airbrush

The Ritchey Bicycle History

Tom Ritchey's interest in competitive cycling began at the age of 14. His enthusiasm for the sport quickly developed into a racing career. In 1974, at the age of 17, Tom was selected to represent the United States in the Junior World Championships held in Poland. The following year Tom raced with the U.S. National team. Today, Tom is still an occasional competitor, but he leaves the serious racing up to his World Championship winning team.

Although it was the thrill of competition that attracted Tom to cycling, it was the challenge of frame building and component design that captured his imagination. Early in his racing career Tom began improving on existing component designs and building his own racing frames. In fact Tom even raced the Junior World Championships on a bike that he built. Word of Ritchey's frames quickly spread and soon Tom found himself building bikes for many of the nations top racers.

With the introduction of mountain bikes in the late 70's, Tom faced a new set of design challenges. As one of the original mountain bike pioneers, Tom has done more to shape the modern mountain bike than any other figure in the business. Some of the original frame and component design ideas first introduced by Ritchey include: the Unicrown fork, Bullmoose handlebars, welded tubular steel stems, oversized tubing, seat tubes ovalized at the bottom bracket, sealed cartridge bottom brackets, first use of quick release cassette hubs, and single bend ovalized chainstays.

In fact, many of these designs and ideas, first introduced by Tom in the 70's, are found on practically every mountain bike today.

P-22

P-21

Everest

TIG Welded Mountain Frame

- Super-clean TIG welding and fillet construction
- World Championship winning geometry and frame design
- Quality, low-temperature silver-brazed fittings
- Logic Comp tubing
- Lightweight, Logic forged drop-outs
- Reinforced seat collar binder
- Ovalized-bulge flared Logic seat tube

P-22

The P-22 offers the confidence inspiring ride of tomorrow's mountain bike technology. Flawlessly TIG-welded and finished by Tom Ritchey, the P-22 frame uses the latest in ultra-light Logic Comp tubing. Race-proven Ritchey and Shimano components. Complete bike weighs just around 22lbs.

RI-MB-P22(size)

\$1,988.88

Fillet Brazed Mountain Frames

- World and National Championship winning design
- Limited edition, personally fillet brazed by Tom Ritchey
- Latest WCS Logic Prestige tubing
- Low stress, low temperature bronze and silver brazing
- Elegantly hand-finished joints
- New logic lightweight Logic forged rear dropouts

Everest

If you're looking for a classic bike to keep in your stable, then look no further. Ritchey uses their Logic Pro component group to build a complete bike at around 23lbs. Now Bunnyhop a fallen branch. Jam up a small bank. Dive into a single track. The bike disappears as you become one with the trail. That's the magic of Ritchey's advanced geometry.

RI-MB-EV(size)

\$2,688.88

P-21 Team WCS

Ritchey's flagship model, the P-21 WCS is a sculpture of WCS Prestige tubes that you'll hate to get dirty. But that's what this race worthy bike is all about. Tom pulled out all the stops on this bike creating a classic fillet brazed frame and decorating it with Team Ritchey's award winning WCS parts. Every attention to detail is made, including the hand built wheels with Z-Max WCS tires, Rock rims, Ritchey Logic butted spokes, and Shimano hubs.

RI-MB-P21(size)

Component Gruppings

Complete Campagnolo Groups

It's nearly impossible to improve on a classic, but Campy's done it again. This years component line features all of the same classy good looks, legendary performance, and remarkable durability that has been Campagnolos trademark since the beginning. For '94, a remarkable step forward in component technology has been introduced by Campy. The EXA-Drive system uses a revolutionary system of staggered, indexed rear cogs and improved front chainrings for incredibly accurate shifting and minimal chain stress. In addition, all of this years Campy components are inter-group compatible, making it easier than ever to upgrade at your own pace. All groups include: Derailleurs, Brake/Shift Levers, Brake Calipers, Hubs, Cassette, Crankset, Chain, Bottom Bracket, Headset, All necessary cabling and hardware.

Ritchey Component Groups

An incredibly cost effective way to build your bike. You bring the frame, and Ritchey will supply the trickiest set of components you can find. The awesome mountain ensembles provides everything you need to get your bike on the road; including tires, tubes, wheels, saddle, and grips. Choose the ensemble that best suits your riding needs. Each grouping is carefully selected to provide the maximum performance with a minimum projected need for upgrades. WCS is pictured.

Ritchey Logic Mountain Group

An awesome way to get yourself started in the world of high performance mountain biking. Features Ritchey Logic components complimented with Shimano DX 7sp. Please see chart for complete specs.

RI-CE-LM

\$649.88

Ritchey Comp Mountain Group

Perfect for anyone looking for ultra high-performance, but not ready to move into the pro realm. Extremely light and durable Ritchey Comp and Logic components work in perfect unison with Shimano XT 8sp./Grip Shift. Also comes with Ritchey's new clipless pedals; the last word in off road performance. Please see chart for complete specs.

RI-CE-CM

\$829.88

Ritchey Pro Mountain Group

Aggressive and demanding recreational riders and racers; this one's for you. This setup will let you get on the trails and down and dirty. Killer combination if Ritchey Comp and Logic Components with Shimano XT 8sp./Grip Shift. Comes with Ritchey clipless pedals. Please see chart for complete specs.

RI-CE-PM

\$999.88

Ritchey WCS Mountain Group

WCS means "World Championship Series", and that's what you'll be ready for with this winning setup. The standard setup on Ritchey's P-21 team bikes can now be yours. Ultra-light and ultra-durable WCS components were designed in conjunction with Ritchey's World Championship winning team. The WCS group uses aircraft grade titanium wherever possible and works in complete harmony with Shimano XT 8sp./Grip Shift or XT Top Mount. Comes with Ritchey clipless pedals. Please see chart for complete specs. Available in Grip-Shift or XT Top Mount.

RI-CE-WM(shifter)

\$1189.88

Complete Shimano Groups

Shimano comes on strong again. Their full line of component groups feature all of the light weight, high performance goodies you've come to expect from this leader. Many new additions have also been made to substantially improve performance and durability. All groups include: Derailleurs, Brake/Shift Levers, Brake Calipers, Hubs, Cassette, Crankset, Chain, Bottom Bracket, Headset, All necessary cabling and hardware.

Chrome cap nut replaces any 6X1mm. outer brake center-bolt cap nut.

CA-BP-CN \$4.88ea.

Ritchey Accessories

Ritchey ATB Stems

WCS and Force Comp stems are the strongest and lightest stems available. They feature uniquely butted "supertubing", made with a proprietary second heat treatment process. This allows for the use of thinner gauge CrMo, trade mark round/oval construction, and unprecedented strength. Fatigue and impact tests show that the WCS and Force Comp stems exceed JIS standards by as much as 300%, outperforming all previously released stems. At a mere 140gr., the unbreakable WCS leads the way in lightweight durability. These are the result of the latest development in Ritchey's line of World Championship winning stems. These stems have won more medals in international competition than all other stems combined.

WCS ATB Stem

- Available in 120, 130, 140, and 150mm. sizes
- 10° positive rise
- 1" (standard) or 1 1/8" (oversize) diameter
- Takes 25.4mm. bar diameter
- Distinctive WCS ano finish
- r. average weight

RI-MS-WC1(size) 1" \$99.88

RI-MW-WC2(size) 1 1/8" \$99.88

RI-MS-FT1(size) 1" \$39.88

RI-MS-FT2(size) 1 1/8" \$39.88

Ritchey Road Stems

Light, stiff, and unbreakable, Ritchey Road Stems have long been a favorite choice of many of the world's top racers. Winner of numerous world and national championship medals, WCS and Force Road Stems use the same unique heat treated construction as their mountain stems counterparts. Both road stems are available in 90, 100, 110, 120, 130, and 140mm. sizes with 0 or negative 10° rise, 22.2 mm standard column diameter and 26.0mm. bar diameter.

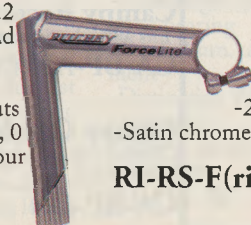

Note: a negative 10 degree rise puts your stem parallel to your top tube, 0 rise points it 10 degrees above your top tube. 0 rise stems are pictured.

WCS Road Stem

- 230 gr. average weight
- Heat treated, butted CrMo
- Distinctive WCS ano finish

RI-RS-W(rise,size) \$99.88

ForceLite Road Stem

- 260gr. average weight
- Satin chrome finish

RI-RS-F(rise,size) \$42.88

Logic Expert...Stress Diffused Bar-

Ends

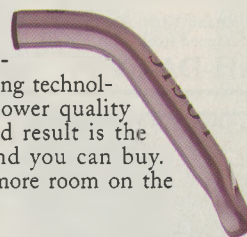

To overcome the problem of bar-ends crunching light, thin-walled handlebars Ritchey developed this incredible bar-end. The Logic Expert is designed with an extra wide clamp that fits under your grips and a diagonal slot to evenly distribute force. Available in silver or black. 160gr/pr.

RI-BE-LE(color) \$29.88

Finish: Silver or Black

WCS Bar Ends

The Pro WCS bar-end is uniquely forged and butted from a single piece of 6061 aluminum. This 3-d tubular forging technology eliminates the need for lower quality bonding or welding. The end result is the strongest and lightest bar-end you can buy. Narrow 14mm. clamp allows more room on the bars. 130gr/pr

RI-BE-WC(finish) \$59.88

Finish: Ano-platinum

Ritchey Handlebars

All Ritchey handlebar designs incorporate double or triple butted construction, the lowest stress transitions, and highest quality materials in the industry. Putting the strength at areas of highest stress before removing material from low stress areas adds incredible strength and shock absorption. Ritchey has developed the lightest, most responsive, most shock dampening competition bars ever.

CompLite Handlebar

A new lightweight and affordable competition series bar. A great choice for ATB enthusiasts who appreciate quality performance. Made from seamless 2014-T6 alloy. 4° bend. 560mm. width. 150gr.

RI-HB-CL \$39.88

Color: Silver

ProLite Handlebar

The ProLite is the first choice of top mountain bike racers. Stress and shock dissipating features and lightweight construction make this bar a clear choice for any high performance rider. Made from butted Easton EA70 alloy. 4° bend. 560mm. width. Comes in two colors to easily compliment your bike. 140gr.

RI-HB-PL(color) \$59.88

Colors: Black, Silver

ProLite WCS Handlebar

The ProLite WCS sets a new standard for competition handlebars. At 123gr., this shock absorbing, lightweight superbar has carried world-championship gold, silver, and bronze medal winners to victory. Made from butted Easton EA70 alloy Available with a 4° bend. 560mm. width. Distinctive WCS hard, platinum ano finish. 123gr.

RI-HB-W \$79.88

Profile Breeze Clip-On

A great entry level aero bar for the amateur racer or weekend road enthusiast. Lightweight, and engineered to be ergonomically correct. Black. Made in the U.S.A. Features:

- Lightweight at 482gr.
- Adjustable width from 8-9"
- 10.25" fixed length
- Crafted from 6061-T6 aluminum

PR-AB-BR

\$49.88

Profile Aero II XL Clip-On

Designed in partnership with some of the fastest cyclists in the world. At 440gr., these bars are one of the lightest available. Not only do they offer length adjustment, but innovative sizing bridges allow you to customize the width. Brackets are also reversible to accommodate two different pad height positions. Swift shift compatible. Black or gunmetal blue. Made in the U.S.A. Features:

- Ultra-light 440gr.
- Adjustable sizing bridges
- Adjustable width from 4-8"
- Length adjustment from 9.3-13.6"
- Tubing made of 6061-T1 aluminum
- Brackets and extension tubes made of 6061-T6 aluminum

PR-AB-XL(color)

\$74.88

Profile AirStryke Clip-On

Before the AirStryke, comfort usually meant sacrificing speed. Profile has changed that forever by creating an ergonomically superior clip-on bar with every adjustable dimension conceivable, including pivotable, pop-up armrests. Instead of forcing the rider to conform to the bar, the AirStryke conforms its length and width to both your upper arms and torso. The armrests tilt 15° in either direction, and pop up out of the way for clear access to the drop bars. Nothing on this bar will hinder comfort to provide you with an aerodynamically superior position. SwiftShift compatible. Black or silver. Made in the U.S.A. Features:

- 490gr. weight
- Spring loaded, pivotal armrests
- Adjustable width from 5-8"
- Length adjustable from 10.3-12.6"
- Crafted from 6061-T6 aluminum

PR-AB-AS(color)

\$109.88

Profile AirWave Handlebar

Profile's one-upmanship has paid off again with this one-piece aero-bar. Designed simply to provide speed, the AirWave provides incredible strength at a fraction of the weight of a conventional bars and clip-ons. As with all of Profile's racing products, the length and armrest width are adjustable for greater comfort. Swiftshift compatible. Made in the U.S.A. Features:

- Incredibly lightweight at 625gr.
- One piece bar design for added strength and weight reduction
- Adjustable width 5.5", 6.5" or 7.5"
- Length adjustable from 2.7-10.6"

PR-AB-AW

\$119.88

Profile Stuff

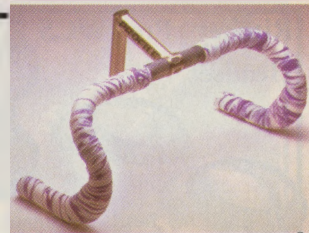

Profile Hammer Handlebar

Even Profile's basic drop bar takes comfort and customization into consideration. Unlike most drop bars, the ultra-light Hammer comes with two shims that can be positioned under the bar tape to give you a grip that feels and fits better in the drop position. Also uses a bulged center section that increases rigidity at a fraction of the weight and without the creaking that a sleeve produces. Gunmetal blue with laser etched graphics. Made in the U.S.A. Features:

- Ultra-light 312gr.
- 26.0 stem diameter
- Available in 40, 42, or 44cm. widths measured center to center
- Specify shallow (40 & 42 cm) or deep drop(42 or 44cm)
- Crafted from 6061-T4 aluminum tubing

PR-RB-H(drop,size)

\$44.88

Profile Pursuit Stem

If it has to do with handlebars, Profile has a way to make it move faster. The new Pursuit road stem is TIG welded from double-butteted chromoly for an optimum strength-to-weight ratio. Its recessed expansion bolt trims the fat while the aerated bar clamp saves several more precious grams. Titanium finish for a unique custom look. Features:

- Incredibly light average weight of 195gr.
- 26.0 clamp diameter
- 10° negative angle - sits parallel to your top tube
- Sizes 90-140mm. in 10mm. increments

PR-PS-(size)

\$49.88

XC Sierra Bar-Ends

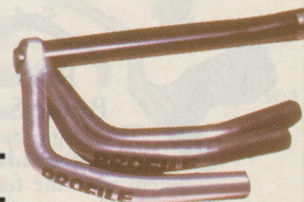

Light flight is here from the leader by design. Already the choice of Ned Overend, national champion ATB racer, and now it can be your choice. Super-strong and remarkably light. Specially designed angle for added hand positions. The long bar shields hands from twigs and debris. Laser etched, black powder finish. 220gr.(long) 170gr.(short) Crafted with pride in the U.S.A.

PR-BE-S(size) \$39.88

Vario Bar-Ends

Position is the key for comfort and power. The Vario bar-end will give you both with a full 24° of free, lockable rotation. Profiles exclusive, patented design allows you to custom tailor the exact position of your bar-ends for optimal comfort and power. 6061-T6 aluminum body and clamp. Laser etched, black powder finish. 200gr.(long) 150gr.(short) Crafted with pride in the U.S.A.

PR-BE-V(size) \$59.88

Profile SwiftShift

This essential device keeps you in the perfect aerodynamic position even when you shift. 56gr. Fits all downtube shifters. Includes cables and housing. Fits Profile I, II, III, and Air Stryke bars.

Logic Pads

Logic brake pads address the problems of premature wear, chatter, and clearance. With one of the largest contact areas of any pad, Logic brake pads stop you fast and predictably, without fading or grabbing. A non-galling 7075 alloy post and case-hardened steel backbone focus braking force more effectively on the rim. Available in all purpose black or adverse condition red. Set of two.

RI-BP-L(color) \$15.88

Ritchey ATB Brake Sets

The Logic brakeset is a high performance braking system with the features that top racers demand. The powerful, medium profile cantilever design is made of the best quality, cold-forged alloy available. Logic cantilevers reduce the distance from the fork to reduce performance-robbing chatter. The specially lengthened vertical slot increases pad adjustability. The brake levers

are designed to obtain maximum performance and comfort. The ergonomically correct, three-finger lever features a wedge profile to reduce fatigue, and a special index finger "harbor" for added comfort. Both brakes and levers are cold-forged for strength.

WCS Cantilevers

- Cold forged 6061 T-6 alloy, brass bushing pivot bearing
- Dual 2mm. allen spring tension adjustment
- Distinctive WCS ano finish
- 150gr./pr.
- Newly designed, quick stopping logic brake pads

Indoor Training

"Killer Headwind" Attachment The Ultimate Windload

No other windload system more closely simulates real-life exponential wind resistance. With the belt on the center groove of the fan drive you can use the indicated load settings to choose any level of resistance. Kreitler is the only windload system that allows you to simulate a tail wind by simply closing the fan housing door. The more you open the door the greater the resistance you experience. Open it all the way if you think you can handle climbing a mountain against the wind. "Killer" is the only windload fan that is placed up front to provide a cooling blast of air as you work. You may also adjust the discharge louvers to direct air away from you. Made in the U.S.A.

Kreitler Rollers

World renown Kreitler Rollers have made a name for themselves as being the smoothest, quietest, highest quality, and best performing rollers in the world. The drums are constructed of the highest quality aluminum alloy which is lathe turned to within 1/1,000" (the highest tolerances in the business). These hand machined rollers spin virtually resistance-free on military quality, maintenance-free German bearings. They will accommodate all bicycles, including ATB and BMX style with wheelbases from 34"-44". Kreitler's exclusive, 4 1/2" diameter drums are "no-slip", hard anodized, and 15" wide for unsurpassed comfort and performance. The belt is almost fully recessed to prevent accidental derailments. Its sturdy folding steel frame is fully supported by eight feet with no-slip, non-marking, tough rubber pads. Its ingenious high-clearance design enables you to use it on even the highest pile carpets with no interference. Kreitler Roller workouts improve muscle tone, spin, and balance when used alone. With the optional fork stand and Killer Headwind they become the perfect indoor sprint/interval trainer. Available with high quality Bayblend-Carbonate ABS belt carriers or alloy endcaps for added precision and durability. Hand made in the U.S.A.

CygoLite Flashing LED's

Lightweight, compact flashing LED rear light provides excellent rear visibility. Features five, super-bright LEDs for 40% more brightness than three LED models. 2000' of visibility and 300-500 hours of run time. Mounts on any rack or reflector bracket. Weighs only 100gr. with two AA batteries. Clear for front or red for rear. Belt clip included. Batteries not included. Made in the U.S.A.

CL-LS-F(color)

\$7.88

Nightsun Pro Stick Tail Light

Visibility from the rear is essential for safe nighttime cycling. The Nightsun Pro Stick offers superior visibility for every night rider, and is a perfect addition to the Nightsun Team Issue or Commuter Special lighting systems. Super-bright, 7 continuous LEDs provide 25 times more output than a standard three LED tail light. Space-age reflective materials help increase effectiveness, while advanced circuitry limits power consumption. Quick release mount permits behind-the-seat or rear rack attachment. Includes all necessary hardware and wiring. 115gr. Made in the U.S.A.

NS-LS-PS

\$39.88

Cygo-Lite Zoom Light

The perfect low-cost, full feature headlight. This advanced bicycle headlight enables you to "broaden your view" with a four position, focusable beam. Extremely durable construction. Uses standard 'C' batteries for up to eight hours of run time. Fits any road or ATB handlebar. Super-bright 2.8 Watt halogen bulb. Batteries not included. 225gr. with batteries.

Cleaners & Waxes

Frame Care

A- LeTour Bicycle Polish and Conditioner

Rapidly restores gloss and beauty to your bicycles finish. Gently removes scuff marks on paint, chrome, and clear coats. Lends a brilliant mirror-like luster to polished aluminum or titanium. Environmentally safe. 4oz jar. Made in the U.S.A.

LT-BC-4 \$4.88

B- LeTour Clear Coat

Perfect for touching up nicks and scratches. Widely used for sealing and protecting fragile frame decals. Dries to a clear, tough finish. For the best protection seal your frame with LeTour 24 Month Frame Coat after clear coating decals. 1 oz bottle with brush applicator. Made in the U.S.A.

LT-CC-1 \$3.88

C- LeTour Treatment and Wax

A premium blend of waxes and cleaners that will give your bicycle a brilliant, rich finish. Fills microscopic pores and leaves behind a durable, deep gloss coating. Safe for all paints, clear coats, and aluminum. 4oz. Made in the U.S.A.

LT-TW-4 \$6.88

D- LeTour Chamois Dry

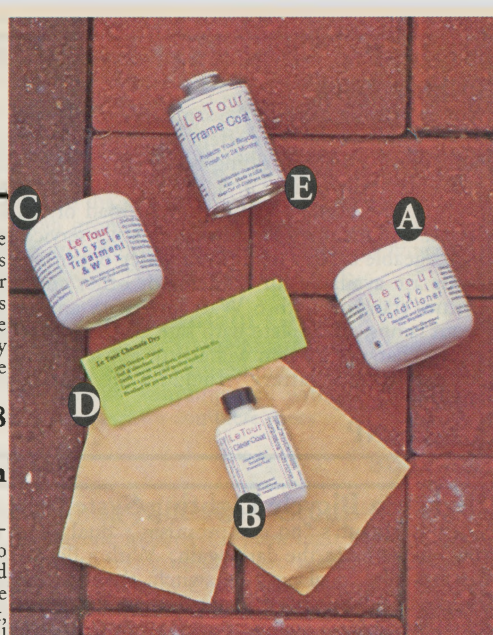

Between cleaning and waxing your bicycle wipe it down with Chamois Dry. Chamois dry gently removes hidden dirt, oil, and water spots that can blemish a fine frame. Waxes will adhere better, last longer, and give a more brilliant finish. Two large pieces of specially treated 100% natural chamois. Made in the U.S.A.

LT-CD- \$2.88

E- LeTour 24 Month Synthetic Wax

A special non-abrasive synthetic wax and sealer that protects your bicycles finish for up to two years. Prevents rust, paint peeling, and blistering. Special UV inhibitors eliminate paint and decal fading. Leaves a brilliant, deep shine that is unattainable with normal waxes. Safe for all finishes including paint, clear coat, chrome, and aluminum. Especially effective on bare titanium surfaces. Highly recommended. 4oz can. Environmentally safe. Made in the U.S.A.

LT-FC-4 \$12.88

on especially greasy or oily cassettes, chains, and components. Economical; dirt and contaminants settle to the bottom of diluted solution allowing Cycle Solvent to be reused many times. 16oz can makes over a quart of powerful degreaser. Biodegradable. Made in the U.S.A.

LT-CS \$4.88

B- Finish Line Citrus Degreaser

A good general purpose degreaser and cleaner. Quickly dissolves old grease and oils. Cleans derailleurs, chains, and freewheels. 11oz Ozone friendly aerosol can. Made in the U.S.A.

FL-DG \$5.88

C- LeTour Cycle Clean

Quickly and easily lifts away dirt and grime without damaging fine paints or delicate decals. Excellent for cleaning tires and rims too. Gentle enough for everyday use. 100% environmentally safe and biodegradable. 12oz bottle. Manufactured in the U.S.A.

LT-CC-12 \$3.88

New! LeTour reusable

12oz spray bottle.

LT-CC-SB12 \$3.88

D- Park Gear Brush

Indispensable tool for anyone concerned with bicycle cleanliness. Thick nylon bristles are tough enough for any chain or cassette but gentle enough for removal of stubborn frame grime. Hooked end is for cleaning between cogs. Made in the U.S.A.

PA-GB \$3.88

E- LeTour Bike Bath

A safe and gentle cleansing wash for especially dirty bicycles. Quickly and effectively floats away caked on dirt and grime. Will not wash out vital lubricants or greases. Contains silicone and UV inhibitors for a long lasting, sparkling clean finish. Concentrated. 12oz. Biodegradable and environmentally safe. Made in the U.S.A.

LT-BB-12 \$4.88

F- LeTour Cycle Wipes

Safe, non-abrasive, and extremely long lasting. Excellent for cleaning, polishing, or waxing your fine bicycle. Washable and reusable. Made from 50% recycled fibers. 15 extra-large 12" by 12" squares. Made in the U.S.A.

LT-CW-15 pack of 10 \$2.88

G- Cafe Micro-Gel Hand Cleaner

Our pro shop's favorite hand cleaner. Quickly penetrates and safely dissolves dirt, grease, and stubborn stains. Gentle and natural, will not harm sensitive skin. Contains no harmful abrasive grits or harsh chemicals. PH balanced. Leaves hands and fingernails sparkling clean. 4oz reusable jar. Made in the U.S.A.

CA-PC-HC \$3.88

H- Cafe Medicated Hand Lotion

Frequent washing, exposure to harsh cleansers, chemicals, or dry weather robs your skin of its natural oils. Cafe Medicated Hand Lotion will protect your hands from cracking, drying, and peeling. It conditions, soothes, and medicates with a silky non-fragrant cream. Restores your skins natural oils and aids in healing. Highly recommended by Branford Bike's mechanics. Dermatologist tested. 6oz. Made in the U.S.A.

CA-PC-HL \$3.88

Degreasers and Cleaners

A- LeTour Professional Strength Cycle Solvent

A powerful, natural, and environmentally safe solvent based parts cleaner. Excellent for soaking or spraying

Bicycle Lubricants

A- LeTour Weatherproof Chain Lube

Our finest lube and the #1 choice of Branford Bike's mechanics. Strongly resists dirt and water. Coats and protects chains, freewheels, derailleurs, and cables. Goes on wet and dries semi-viscous for maximum performance and protection. Will not leave bare spots or harden like wax or dry lubes. 100% waterproof and environmentally safe. Made in the U.S.A.

LT-CL-12 12oz. aerosol **\$9.88**
LT-CL-4 4oz. squeeze bottle **\$4.88**

B- LeTour Competition Lube

When seconds count, you will not find a faster or smoother lube. Excellent for race days or before your next century. Safe to use with LeTour Weatherproof Chain Lube. Fine tunes your derailleur and drivetrain for optimum performance and efficiency. 100% environmentally safe. Made in France.

LT-CL-V **\$4.88**

C- Finish Line Chain Lube

A good general purpose, light to medium duty chain lube. Goes on wet and rapidly displaces old oils and moisture. Dries to a waxy film. Contains Teflon. 11oz. spray can. Made in the U.S.A.

FL-CL-11 **\$7.88**

D- Campagnolo Chain Lube

Smooth, durable, and fast. Designed for competition bicycles and tough race conditions. Goes on wet and stays that way for maximum lubrication. Remains free flowing; making it excellent for alloy cogs, freewheels, cassettes, and lightweight chains. Made in Italy.

CA-CL-A **\$9.88**

E- LeTour Weatherproof Grease

The finest grease we've ever used. Originally designed for boat trailers and harsh salt water environments. Smooth, exceptionally durable, and easy to use. Creamy white consistency will hold up for years, even under the most punishing conditions. 100% waterproof and environmentally safe. Exclusive grease of Branford Bikes famous repair shop. Works great with the LeTour grease gun. 4oz.jar. Made in the U.S.A.

LT-WG-4 **\$4.88**

F- LeTour Competition Grease

A crystal clear grease that will shave seconds or even minutes off your best time. Extremely smooth and slick. Makes your best wheels even faster. Widely used by professional riders. 3oz. tin. Environmentally safe. Made in France.

LT-BG-V **\$3.88**

G- Campagnolo Krystal Grease

Smooth, fast, and durable. Designed for competition bicycles and hard riding conditions. Completely waterproof, long lasting, and easy to use. Crystal clear. 12oz. can. Made in Italy.

CA-BG-K12 **\$19.88**

H- LeTour Pro Grease Gun

A convenient and easy to use grease gun that keeps your hands clean and your grease pure. Quickly and efficiently lubes hubs, bottom brackets, headsets, freewheels and injection ports. Pointed nozzle easily fits into hub races, freewheel backs, bottom bracket shells, and other hard to reach places with ease. Quickly displaces old grease and moisture without complete parts overhaul. More convenient than a nozzle adapter because you choose the grease. Made in the U.S.A.

LT-GG **\$9.88**

I- Needle Nozzle Accessory

Over 4.5 inches long to make grease injection easier. Quickly service hubs, freewheel backs, and bottom bracket shells. Threads onto the LeTour Grease Gun. Made in the U.S.A.

LT-GG-NN **\$4.88**

Nozzle Protector

Slides over the tip of the LeTour Grease Gun or LeTour Needle Nozzle to prevent leakage and grease contamination.

LT-GG-NP set of two **.99¢**

J- Campy Shop Apron

Keep yourself clean like the Branford Bike pro mechanics. Adjustable, soft cotton neck strap and tie strings. Extra-large triple pockets. Dark blue color won't show dirt and grease. Durable and machine washable.

CA-SA **\$12.88**

A- Pedros Syn Road Lube

High performance road lubricant is long lasting, weather durable, and substantially reduces friction. Specifically designed for the demands of road riding. 2ozs. synthetic lubricant.

PE-CL-R **\$3.88**

B- Pedros Syn ATB Lube

With a higher viscosity and slightly different composition, this high performance ATB lubricant lasts longer and performs better than any

similar lubricant. 2ozs. synthetic lubricant.

PE-CL-A **\$3.88**

C- Pedros Bio-Shock

Lube your shock the right way with this environmentally sound shock oil. Specially formulated for both air/oil and elastomer shocks. 4ozs.

PE-BS-4 **\$7.88**

D- Pedros Syn-jection Grease

Advanced chemical composition is engineered for ultra-high performance. Water-proof, high viscosity grease is perfect for any bearing surface on ATB and road bikes. 3ozs. synthetic grease.

PE-BG **\$5.88**

Synject grease injector accessory for Syn-jection grease. Reach hard to get bearing surfaces and recharge injection hubs and bottom brackets.

PE-GG **\$9.88**

Save More! grease & injector \$14.88

E- Pedros Bio Degreaser

The environmentally friendly way to cut through grease and grime. Completely biodegradable, water based, and water soluble. Will not harm painted surfaces. Comes in reusable, non-aerosol pump bottle. Non-flammable. Pleasant lemon-lime scent. 12oz. spray bottle.

PE-BD-12 **\$5.88**

F- Pedros Bike Lust Bike Polish

Finally, a one step cleaning and polishing product. Quickly and easily cleans and protects to restore your bikes finish. Silicone based to help shed water and prevent dirt buildup. Comes in reusable, non-aerosol 12oz. pump bottle.

PE-BL-BP **\$5.88**

Decals & Bottles

Avocet Cycling Computers

For those of you who didn't find the features that you needed in older Avocet computers, welcome to the next generation. Advanced features, unprecedented precision, and logical controls are all hallmarks of the newest set of computers by Avocet. When its

time to get down to business and performance really counts, Avocet is the obvious choice. With their small, incredibly lightweight, and low profile design Avocet has been the favorite computer of more cyclists than any other.

Avocet Cyclometer 35

The most advanced, entry level computer available. Includes many features only found on more pricey brands.

Features:

- Average and maximum speed have .1mph accuracy
- Current speed has .1mph accuracy
- Pace arrow shows in all functions
- Trip distance reads to 999.9 miles
- Total distance reads to 9999 miles
- Stop-watch displays 12 hours
- Clock can be set to 12 or 24 hour
- Calibration number is the wheel circumference-no more annoying decoding
- Miles convert to kilometers when setup is changed
- New functions include reentry of total distance after battery change, and sleep function to cut battery consumption by 50% when computer is not in use
- Mount kit available for oversized and suspension forks

AV-CC-35(color)

\$39.88

Colors: Black, Purple, White

Avocet Cyclometer 45

The largest leap forward for all cycling professionals and enthusiasts. Offers advanced features that are absolutely not found on other computers. Added precision makes speed readings a much more valuable training tool.

Features:

- All the features of the Avocet 35 plus...
- Average speed in .1mph accuracy
- Current speed in .01mph accuracy
- Trip distance reads to 1999.99
- Total distance reads to 19999
- Patent pending gear-inch reading with cadence model helps you know when to shift for optimum performance
- Auto start ride time shown simultaneously with average speed

Discovering America

By Martha J. Retallick. Excerpt: I made my first bicycle tour when I was 22 mos. old. It was a day trip around Nantucket, an island off the coast of Massachusetts. My father piloted the rented English 3-speed while I took a nap in the kiddie seat.

A little over 20 years later, I found myself in the midst of a 2,500-mile bicycle journey through the upper Midwest and Canada...

This wonderfully written and entertaining book not only takes you on a fascinating journey, but provides you with tips on: what to look for in a touring bike, finding touring partners, planning a route, places to stay, dressing for bike touring success, driver's ed for cyclists, coping with repair "opportunities", and training for your tour. A delightful way to be informed. 239 pages with room for notes.

Sex in the Outdoors

By Robert Rose, M.D. and Buck Tilton, M.S. A humorous and fun look at a common camping skill. Everything you ever wanted to know about sex in the outdoors, but were afraid to ask. From the history of sex to the reasons for sexual contacts in tents, this book is thoughtful and provocative. Discover special positions for special places. Understand sex guidelines, etiquette and even chemistry with an environmental perspective. Employ safe sex protocols. Learn other ways to say "sex". Don't buy this book if you want profanity, nudity, pornography, or sex in public places. But if you're looking for a cheap thrill, you've picked the right book. 86 pages with illustrations.

How to Sh*t in

The Woods

By Kathleen Meyer. Most outdoors books available in English fall prey to Victorian sensibilities and fail to mention one of the most serious issues encountered in trekking around the countryside. The author, a long-time outdoorsperson and river-runner, corrects this oversight in this informative, and often hilarious book. What was once instinct now needs to be learned. Features provoking quotes from figures throughout history. A great way to become informed on the serious issue of how to deal with your own waste in the wilderness. 77 pages.

Country Inns in New England

By Elizabeth Squier. Remote lodges in the Green and White mountains of Vermont and New Hampshire. A sea captain's home off Nantucket Sound. Berkshire Mountain retreats for hiking and skiing. Ocean-view, turn-of-the-century homes on the rocky Maine coast. Gingerbread-trimmed Victorian homes everywhere. In this thirteenth edition of her "bible of the industry", the author profiles 202 of the best and most interesting inns in the six New England states. Her continual travel throughout New England has yielded fresh accounts of many different kinds of establishments. There are unique inns to suit every taste. Features details on: rooms, rates, season schedules, directions, local activities, particular characteristics, and cuisine. 430 pages with photos.

PA-CT-PIN spare pin \$3.88ea

D- Park Chain Checker

At last, an accurate, easy to use tool for gauging chain wear. Simply slip the pins between the links of any chain, twist the knob, and read the wear gauge.

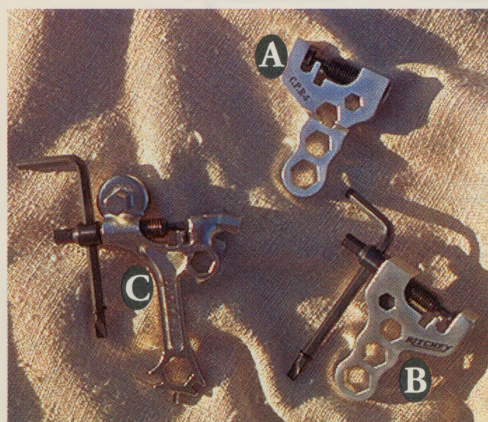

PA-CT-C \$10.88

E- Shimano Cassette Lockring Remover

Quickly and easily remove the outer locking on any road or ATB Shimano cassette. Pro model gives you a full 14" of comfort coated leverage. Use with Wheels chain whip.

SH-CS-LR \$12.88

Save More! with whip \$19.88

Ritchey CPR-4

Most accurately described as a tricked out pair of tire levers, this pocket tool is best for short rides where extensive emergency repairs are unlikely. Made of resin com-

posite and lightweight aluminum.

Features:

1pr tire levers
8-9-10mm. sockets
4-5mm. allen keys
Emergency screwdriver
57.2gr.

RI-CP-R4 \$9.88

A- Ritchey CPR-5

The lightest, most durable multi-function tool on the market. Incredibly small and easy to use. Constructed of high-quality 7075 T-6 alloy.

Features:

8-9-10mm. sockets
Chain tool
13-15g. spoke wrench
27gr.

RI-CP-R5 \$12.88

B- Ritchey CPR-9

This second generation pocket tool contains all of the standard mini-tool components, and then some. Great all around emergency tool fits easily into cramped spaces and is one of the lightest multi-function tools. Extremely easy to use. Constructed from machined 7075 aluminum and CroMo steel.

Features:

4-5-6mm allen keys
8-9-10mm sockets
Chain tool
Flathead screwdriver
Spoke wrench
46.8gr.

RI-CP-R9 \$17.88

C- Ritchey CPR-14

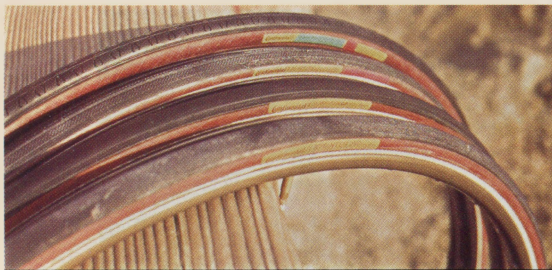

Truly an all purpose tool. Contains virtually every tool that you could need in an emergency, including some odd sized allen's. Judged best by Mountain Bike Magazine. Constructed from investment cast CroMo.

Features:

3-4-5-6-8mm allen keys
8-9-10-14 sockets
Flathead screwdriver
Chain tool
Spoke wrench
Bottle opener(after the race)
79.2gr.

RI-CP-R14 \$27.88

Road Tires & Tubes

Continental Tires

Ridden victoriously for years by European pros. Designed with a tough, all but puncture proof polyamide casing and a remarkably fast and responsive natural rubber tread compound. Continentals tubulars are particularly known for their amazing durability. See chart below for specs and prices.

Michelin Tires

High performance tires from one of the oldest names in the business. Decades of experience have created some of the most durable, responsive, and economical tires available. The no-tread design of the Super Comp and High Lite offer superb traction in any weather condition while the high density weave construction and Kevlar bead in all the tires make them virtually bullet-proof. Ultra-light and foldable for easy storage and carrying. See chart below for specs and prices.

Avocet Fast Grip Trial Time

Ultra-low rolling resistance and responsive ride are the hallmarks of Avocet's high performance tires. Designed for time trialing, yet well suited for training or performance riding. Extremely light and durable. See chart below for specs and prices.

Slime Flat Tire Eliminator

If you're sick of flats, the solution is here. The Flat Tire Eliminator comes in an easy to use 4oz. squeeze bottle. Simply deflate your tube, remove the valve core of any presta tube with the enclosed tool, and squeeze in the contents. One application repeatedly seals punctures up to 1/8".

LT-FT-E \$4.88
Save More! 2 for \$9.88

Slime Tube

A mountain bikers number one tool against flats. This self healing tube virtually eliminates flat tires by repeatedly sealing holes up to 1/8". Don't be caught in the woods without one. 26X1.95-2.125. Presta valve. Made in the U.S.A.

LT-ST \$10.88

Ritchey Pro Latex Tubes

Ritchey's Pro tubes are the worlds lightest. One pair will save you nearly 100gr. of rotating weight over other lightweight latex tubes. Add the trusted, puncture resistant quality of Latex rubber, and these tubes genuinely earn the distinction of World Championship Series quality. Presta valve only.
-26X1.5-1.9\110gr., 26X1.9-2.3\130gr., 700X18-24c\50gr.

Ritchey Pro Rim Tape

At just 3gr. per wheel, this high-quality, polyester weave, adhesive-backed rim tape will save you 30gr. per pair over conventional rubber rim strips, and improve tire/rim compatibility. Available in two widths. One roll per pair of rims.
-14mm.(fits 19-21mm.)
-16mm.(fits 22-27mm.)

RI-RT-(size) \$9.88pr

Ritchey Road Tires

Tom Ritchey has combined years of nationally ranked road racing experience with his award winning Vector Force Analysis technology to create the worlds finest racing tires. Never before has a road tire so accurately addressed the forces imposed upon it. The result is road gripping action and super low rolling resistance that make this the ultimate road tire. The Road Force is standard equipment on the Ritchey Road Race Team's bikes. Available in foldable Kevlar bead or non-folding steel bead. Incredibly durable and light. See charts below for specs and prices.

Advent Tubes

High performance replacement tubes for any size tire. Made of high quality butyl rubber.

Tubes & Tire Accessories

A- Fast Talc

Your tires will puncture less and give you a smoother ride if you use an little Fast Talc when installing your tubes. Fast Talc allows the tube to move with the tire as it conforms to the road or trailsurface. Reduces tube to tire stress and heat build up. Increases tire life, responsiveness and overall riding comfort. Pleasant scent; easy to apply with no mess, 120z. reusable shaker bag. Manufactured in the U.S.A.

LT-FT- \$3.88

D- Conti Tubes

The #1 choice of champions for years. One piece, extruded design eliminates the horizontal seam that can cause premature wear and tube failure.

High quality, puncture resistant butyl rubber. Replaceable valve core. Road sizes (presta only): 700x18c=100gr., 700x20-25c=105gr. ATB Presta or Schraeder 26x1.75-2.125=200gr.

CO-TT-(valve,size) \$6.88

B- Rim Strips With Kevlar

Extremely durable cloth rim strips reinforced with Kevlar for extra strength. Self adhesive; easy to apply. Tested to 400psi. 12gr. 18mm fits all road and ATB rims. Manufactured in France.

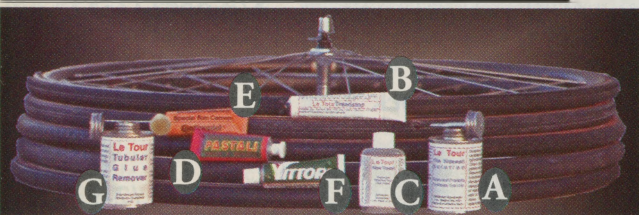

LT-RS-B \$1.88ea.

C- Ultra Light Rim Strips by Rox

At three grams per pair these are the lightest rim strips we've ever seen! Tough, rip stop nylon strip is self adhesive and easy to apply. Resists high pressures; will not slip or puncture. Manufactured in the U.S.A.

RO-RS-(width) \$3.88pr.

Models: 17mm for most road rims or 20mm for wider rims

A- LeTour Sidewall Solution

Your fine clincher or tubular tires will puncture less and last longer if you coat the sidewalls with sidewall solution. Forms a thin, tough coating that resists abrasions, punctures and casing oxidation. 4oz can with brush. For road and ATB tires. Manufactured in the U.S.A.

LT-SS-4 \$5.88

B- LeTour Tread Stop

Tread Stop greatly extends your road or ATB tire's life by sealing nicks and cuts in its tread. Easy to apply, dries quickly. Tough, long wearing synthetic rubber compound. Best when used with LeTour New Tread. 150gr. tube. Manufactured in the U.S.A.

LT-TS- \$4.88

C- LeTour New Tread

Cleans and revitalizes your tires tread. Use before sealing nicks and cuts with Treadstop or restore dry, cracked treads to like-new condition. Now with UV inhibitors to further extend your tires life. Concentrated; one bottle handles 4-6 tires. Manufactured in the U.S.A.

LT-NT- \$4.88

LeTour Base Tape Cement

Firmly and securely glues your tubular tire's basetape. Seals puckers and bonds securely to your tire casing. Best when used with LeTour Sidewall Solution 4oz. can with brush. Manufactured in the U.S.A.

LT-BT-G \$4.88

Tire Storage Rims

Save money and extend your tires life by storing new tires on stretching rims in a cool, dark place. The tread strip and casing will gently age and become tougher. Damaging creases are eliminated and the tires are pre-stretched, making final mounting much easier. Manufactured in the U.S.A. Tubular or clincher 700c.

LT-SR-(model) \$6.88ea
Save More! two for \$12.88

D- Pastelli Tubular Glue

Our favorite because it's easy to use and neatly cements the tire to the rim. Remains pliable for easy cleanup with LeTour Rim Cement Remover. Manufactured in France.

PA-TG- \$2.88ea
Save More! 2 for \$4.88

E- Continental Tubular Glue

A thin, clear glue that is easy to apply and dries quickly. Excess glue is easily removed with LeTour Rim Cement Remover. Manufactured in Germany.

CO-TG \$2.88ea
Save More! 2 for \$4.88

F- Vittoria Tubular Glue

A tough, red adhesive that almost permanently bonds your tubular to your rim. Recommended for heavy or especially aggressive riders. Cleans up with LeTour Rim Cement Remover. Manufactured in Italy.

VI-TG- \$2.88
Save More! 2 for \$4.88

Note: One tube glues two tires.

G- LeTour Rim Cement Remover

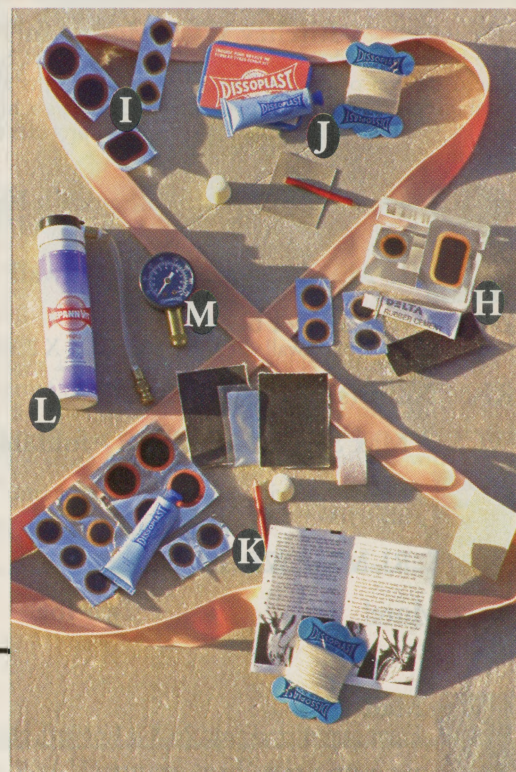

Professional strength formula. Quickly and easily removes excess tire glue, sticky road tar and oily grime. Comes in a 4oz can with an easy to use applicator. Pleasant smelling, safe to use. Will not harm sidewalls, dissolve base tape glue, or attack rims like other solvents. Manufactured in the U.S.A.

LT-RC-R \$4.88

H- LeTour 400psi Clincher Patch Kit

Specifically designed for high pressure applications and ultra-performance tubes. Thin, extremely flexible patches go on easy and bond permanently. Contains 5 patches, glue, sandpaper and easy to follow instructions in a reusable snap-lock box. For road or ATB tires. Manufactured in Taiwan.

LT-PK-C \$2.88

I- LeTour 400psi Patches

Small, 3/4 inch circular patches. Feather edged, thin and extremely flexible. For use with all butyl or latex tubes. Manufactured in Taiwan.

LT-PK-SP30 box of 30 \$5.88

J- LeTour 400psi Tubular Patch Kit

Everything you need to patch a tubular quickly and easily. Complete with thimble, needle, waxed thread, emery cloth, 8 tapered patches, casing patches and tube of glue. Manufactured in France.

LT-PK-T \$5.88

K- LeTour Professional Patch Kit

Easily repair tubular or clinchers with LeTours professional quality kit. Detailed step by step instructions and everything you need to breeze through the job. Complete with 15 400psi patches, thimble, waxed thread, needle, Fast Talc, sandpaper, casing patches, pencil and extra large tube of patch cement. Perfect shop kit. Manufactured in France.

LT-PK-P \$9.88

L- LeTour Puncture Sealant

Excellent for fixing slow leaks in tubular tires. Simply thread on to your presta valve stem and press the button. Your tire will rapidly fill with air as your puncture is permanently sealed. One can provides two applications. Adds only 15gr per application. Manufactured in France.

LT-PS- \$9.88

M- Analog Pressure gauge

Tires and tubes last longer and ride smoother if you regulate their pressure daily. This small and easy to use hand held gauge is exceptionally accurate. Max 180psi, highly recommended. Seals tightly and requires less than 1psi per reading. Manufactured in the U.S.A.

KB-PG-(model) \$7.88
Models: Presta or Schraeder

Tires for Hybrid & ATB

Ritchey WCS Mountain Tires

The incredibly lightweight, high performance, WCS tires have consistently graced the top of the leader boards at pro events around the world. The combination of a vector force analysis tread design, high thread count casing, and a special low density rubber compound provides race proven, predictable performance.

WCS Z Max - foldable with a Kevlar bead

Front or rear 26 X 1.7(410gr), 26 X 1.9(475gr), 26 X 2.1(550gr)

RI-MT-ZKB(size) blackwall \$34.88ea.

Z Max with a steel bead

Front or rear, blackwall, 26 X 2.1(600gr), 26 X 2.35(690gr)

RI-MT-ZSB(size) blackwall \$24.88ea.

WCS Z Max Severe Condition - foldable w/Kevlar bead

Front or rear with a deeper tread for nastier conditions. 26 X 2.1 only - 560gr

Ritchey Cross and Specialty ATB Tires

Alfa-Bite Trail Mix

Designed for hybrid and touring, steel bead 700 x 35(440gr), 700 x 40(470gr).

RI-CT-ABC(size)

\$19.88ea./2-\$34.88

Cross Bite - high performance foldable

Made for riding on pavement, while maintaining a stable feel on dirt or rough roads, foldable 26 x 1.1(330gr). 90psi tire pressure.

RI-CT-CB(size) skinwall \$34.88ea./2-\$54.88

Steel bead 26 x 1.9(490gr), 700 x 38(450gr).

RI-CT-CBN(size) skinwall \$24.88ea./2-\$39.88

Moab Bite - Slickrock

Designed for Slickrock or streets. Recommended tire for city commuters, steel bead 26 X 2.1(620gr). Blackwall.

RI-CT-MBS

\$18.88ea./2-\$34.88

Tom Slick - foldable with a Kevlar bead

Low rolling resistance design in the high wear center improves speed and durability. Inverted wedges on the edges catch more of the road's surface during hard cornering, foldable 26 X 1.4(360gr).

RI-MT-TSK \$29.88ea./2-\$49.88

Non-foldable 26 X 1.4(450gr), skinwall, steel bead.

RI-MT-TSS \$16.88ea./2-\$29.88

Continental ATB Tires

When the top pro teams and riders chose their equipment for 1994, the list that chose Conti tires went something like this: Fat Chance, Slingshot, Dean Titanium, Ruthie Matthes, Lisa Muhich, Jan Bolland, Tammy Jacques-Grewal, and rookie-of-the-year Bob Roll. Conti ATB tires are race proven to be aggressive, responsive and incredibly puncture resistant. With a super-tough two-ply sidewall and three-ply under the natural rubber tread, Conti tires are virtually indestructible. The natural rubber provides superior traction and less rolling resistance than any synthetic tread. Our favorite! Always limited supplies, order early and put some aside for future trail rides.

Continental Competition Pro 1

The Pro 1 excels on coarse and hard soils. Designed to penetrate the surface and track hard on the substrata. It has an extra-thick layer of solid rubber over the entire casing and knobs. Extremely low rolling resistance and superior self-cleaning.

CO-MT-CPF1 Foldable 26 X 2.125(650gr) \$39.88

CO-MT-CPS1 Steel Bead 26 X 2.125(700gr) \$23.88

Continental Competition Pro 2

The Pro 2 is specially designed for softer ground. Casing has a flatter, more angular profile that gives it a sharper edge to really bites into corners. Shaped and spaced for exceptional traction and self-cleaning. An extra layer of rubber in the sidewall provides superior puncture resistance.

CO-MT-CPF2 Foldable 26 X 2.125(600gr) \$39.88

CO-MT-CPS2 Steel Bead 26 X 2.125(650gr) \$23.88

Continental Leader Pro

The Leader Pro is designed for controlled high speed cornering. It has outstanding straight line stability, superior puncture resistance and is very fast!

CO-MT-LPF Foldable 26 X 2.0(480gr) \$39.88

CO-MT-LPS Steel Bead 26 X 2.0(530gr) \$23.88

Continental Cross Country Pro

The Cross Country Pro is Conti's most versatile ATB tire. It offers incredible handling, stability, speed and grip. Perfect for all purpose trail and road riding.

CO-MT-CCF Foldable 26 X 1.9(530gr) \$39.88

CO-MT-CCS Steel Bead 26 X 1.9(580gr) \$23.88
