ASSOS PRO SHORTS

Because of their extraordinary comfort, fit and durability ASSOS Pro shorts are worn by more professional riders than any other brand. The thick 9.5 ounce special blend of nylon and lycra is incredibly strong; it rarely rips even in severe crashes. It also has an excellent memory and will not stretch out of shape. Anatomical construction, expert tailoring and impeccable Swiss workmanship further assure you of a perfect fit and miles of comfortable riding.

Pro H - drawstring waist

Carefully designed, cut and stitched for the rigors of professional racing. Smooth anatomical cut, comfortable drawstring waist, eight panels and a well padded large chamois are standard. Extra features include flat sewn seams, rubber leg grippers and your choice of an easy care synthetic or a traditional leather chamois. Now available in solid black or cooler summer weight white.

AS-HS-(color, size)

Sizes: XS-XXL

Synthetic Chamois

Leather Chamois

White available w/synthetic chamois only

\$79.88

\$89.88

SHORTS WITH SUSPENDERS

Pro T

Identical to the Pro H except these come with lightly padded suspenders, a higher cut back and an extra large chamois for maximum comfort. Also available with an easy care synthetic or traditional leather chamois.

\$99.88

Pro T Roubaix Shorts

Designed for and widely used by professional riders in early and late season races. Lined with a soft, thin layer of fleece for extra warmth. Rated to 45 degrees. Identical cut and sizing as the ASSOS Pro T. Extra-large synthetic chamois.

AS-RS-(Sizes: S-XXL) Black

Synthetic Chamois only

\$99.88

ASSOS

A PERFECT FIT

ASSOS clothing is designed to fit you snugly in a full tuck (hands on the handlebar drops) position. Thus, when trying on your new ASSOS garments they should feel tight in the shoulders or armpits when you are standing up and less restrictive and more comfortable when you are sitting on your bicycle.

CHAMOIS

Since ASSOS shorts last such a long time you may have an occasion to replace the chamois. Just cut the old one out and easily stitch in a new one. State short style (Bib or drawstring, synthetic or natural) when ordering.

AS-CH \$29.88 (short style, synthetic or natural)

CHAMOIS CREME

Soften, protect and preserve your expensive synthetic or natural chamois with this easy to apply and pleasant smelling creme. Replaces natural oils and eliminates chafing. Quickly softens any stiff or dry chamois. For added protection ASSOS chamois creme contains a strong germicide to prevent bacterial or fungal infections. Long lasting. 4 oz. usually is enough for 100 rides.

AS-CC \$9.88

SHORTS WEAR AND CARE TIPS

Well made shorts have real or synthetic leather chamois. Unlike abrasive terry cloth or itchy polypro fluff liners, quality shorts are designed to be worn next to your skin. The soft chamois gently grips your skin and prevents rubbing or chafing. Underwear is not needed and actually hinders the shorts performance. To keep your chamois soft and clean, wash regularly and treat with ASSOS chamois creme.

Hand wash and drip dry all shorts with a natural chamois. When putting on shorts always gently push the chamois liner into place against your skin rather than pulling the shorts up which can cause the lycra to tear away from the chamois.

ASSOS Cycle Wear

PRO SKINSUITS

An ASSOS skinsuit is the most comfortable and aerodynamic outfit you can wear for cycling. ASSOS Pro skinsuits fit you like a second skin. They are precisely anatomically cut and tailored for a full tuck position. Because the soft, silky lycra blend material is cooler and cuts through the air more efficiently than jerseys or bare skin this is the garment of choice for professional time trialists. Rugged construction and an extra large chamois will give you years of performance and comfort. Hand wash and drip dry.

AS-SK-S(color, size) \$169.88
Models: White, royal blue or neon yellow w/contrasting black bottoms.
Sizes: SM-XXXL

OFFICIAL TEAM SKINSUITS

Produced by ASSOS for select professional teams these finely cut and tailored skinsuits are now available on a limited basis. Bright, vibrant colors, special lycra blend material and exceedingly durable construction make this a skinsuit you will wear for years. Hand wash and drip dry.

AS-SS-T(size) \$199.88
Models: Eveready, call for others.
Sizes: SM-XXXL

CASH/KEYS CARRIER

Many cycling jerseys, tees and shorts don't have pockets so it is difficult to carry money, keys or credit cards. The ASSOS cash/keys carrier easily attaches to your wrist, ankle or bicycle with a secure velcro closure. Soft terry back won't irritate sensitive skin or scratch delicate paint. Secure and waterproof zippered compartment will hold cash, keys, credit cards, ID, etc. Fits over tights, jersey or jacket sleeves. Machine wash and dry.

AS-WB \$12.88

AERO SHOE COVERS

Smooths over rough shoe lines thus reducing drag and turbulence. Widely used in time trials and triathlons; legal for all events. Fits over all clipless and regular pedal cleats. Black with a smooth elasticized cuff. Give shoe size when ordering.

AS-SC-(size) \$19.88 pr.

PRO ARM AND LEG WARMERS

Stitched with a thick and warm 9.5 ounce nylon/lycra blend for additional comfort on cool or damp days. Soft rubber gripper tops gently keep these in place. Legwarmers have padded knees and stirrups for extra warmth. Temperature range 55-75 degrees.

Pro Arm Warmer
AS-AW-one size \$29.88 pr.
Colors: White, black, blue and neon yellow

Pro Leg Warmer
AS-LW-(size) \$39.88 pr
Give short size Color: Black

OFFICIAL TEAM JERSEYS

These are the official jerseys produced by ASSOS for select professional teams and now available on a limited basis. Expertly cut and stitched with RC material for a snug and smooth fit. Designed to meet the rigorous demands of professional racers these jerseys are exceptionally comfortable and long wearing. 3 rear pockets. Machine wash & dry.

AS-SJ- Sizes: S-XXL \$69.88
(Model, Size)
Models: Eveready, call for others.

PRO JERSEYS

Like the official ASSOS team jerseys these are extraordinarily comfortable and long lasting. Anatomically cut and tailored with light and cool RC material for a smooth non-constricting fit. Soft, satin texture, vivid rich colors. 3 rear pockets. Machine wash & dry.

AS-SJ-(Model, Size) \$64.88
S-XXL
Models: White, neon pink, neon yellow, neon green and \$Dollar design.

GLOVES

A soft absorbent brow wiping terry cloth side panel accents this long wearing and comfortable summer glove. Full grain goatskin palms are thickly padded and absorb numbing road shock well. Lycra backs further assures you of a bright snug fit. Hand wash and drip dry.

AS-SG-(color) \$29.88 pr.
Solid white, royal blue or neon yellow

ASSOS DELUXE CYCLING SOCKS

Woven from an especially soft and durable cotton/poly blend this sock is extremely comfortable. Extra padding is provided in the critical areas of the heel, toe and counter for maximum wear and pedaling ease. Over-the-ankle cut. Made in Switzerland. Machine wash and dry.

AS-CS-(size) \$7.88 pr.

GIESSEGI - GSG

GSG clothing is painstakingly designed and produced by Simone Fracaro and Company in northern Italy. Simone raced professionally for over a decade and twice victoriously claimed national championships.

Simone intimately understands how clothing must be designed for and work with the competitive cyclist. He has used this knowledge to produce exceptional clothing for many professional and amateur teams. Now CSG team clothing is available in limited quantities from Branford Bike.

a TEAM JERSEYS

Carefully handcut from a specially woven 60/40 blend of cool, comfortable cotton and stretch polyester. Double stitched and tucked seams for maximum comfort and longevity. Tapered cut for a snug, non-restrictive fit. Bright fadeproof colors. Three rear pockets. Limited quantities. Machine wash and dry.

Sizes SM-XL

GS-SJ-(model, size)

\$49.99

Models, Pepsi & 7-Up

b TEAM SHORTS

Made with the same exacting care and durable construction as GSG's team jerseys. Extra heavy 9 ounce nylon/lycra fabric is handcut and meticulously stitched. Bright, well printed side panels carefully match the team jersey. Gently elasticized waist, soft rubber leg grippers and a generously padded easy care synthetic chamois. Limited quantities. Machine wash and dry.

GS-HS-(model, size)

\$49.88

Sizes: SM-XXL

Models: Pepsi, & 7 Up

c ASSOS FIVE - LOTTO

Designed by ASSOS and stitched in Italy as an alternative to their official team model which is no longer in production. Comfortable Swiss-tex fabric is light, airy and cool. Brightly printed with sharp, neon colors. 3 rear pockets, tapered fit. Machine wash and dry.

BB-SJ-L (size)

\$49.88

Sizes: SM-XL

d TEAM GLOVES

Tough, full grain leather reinforced palms are double stitched to a durable 9 ounce nylon/lycra back for a snug and protective fit. Bright colors match the GSG team jerseys and shorts. Secure velcro closure.

GS-SG-(model, size)

\$24.88 pr.

Sizes: SM-XL

Models: Pepsi, 7-Up

e CAFE GLOVES

From the home of the victorious Cafe de Columbia team comes a remarkably comfortable and long wearing glove. Tough goatskin palms are lined with soft absorbent chamois and lightly padded. A unique velcro-less back lends even greater comfort. Deep, rich colors embellish this fine glove. Hand wash and drip dry.

CA-SG-(model, size)

\$14.88 pr.

Models: Campagnolo, Shimano, Cinelli, Cafe de Columbia and USA

ROSARIO ANDO -

Coolmax Jerseys

Beat summer's heat with these silky, light and airy Coolmax jerseys. Hand cut and meticulously sewn by Rosario Ando and family. Cut full and loose for casual riding or training. 3 extra deep rear pockets. Bright fade-proof colors and two new designs. Made in USA.

RA-TJ-(model, size)

\$44.88

Sizes: SM-XL

Models: Campagnolo and Shimano

g Shorts

Now with a soft and exceptionally comfortable Coolmax chamois. Anatomically cut with a high back, non-pinching elastic waist and gentle leg grippers. Perfect for casual riding or training. Easy care, machine wash and dry. Rich, fade proof colors and two new designs. Made in USA.

HS-(model, size)

\$39.88

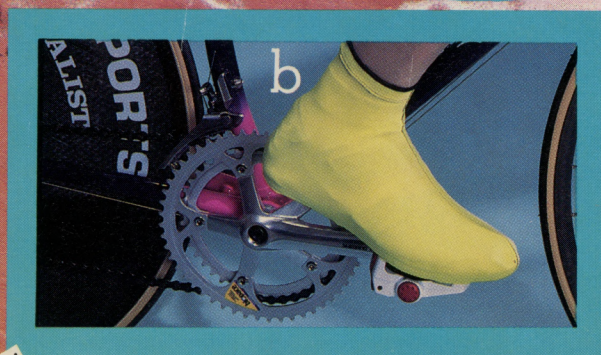

Sizes: SM-XL

Models: Campy, Shimano or Cinelli

COOLMAX

Well suited for hot summer days. Coolmax actually enhances your body's natural cooling system by providing a larger surface area than bare skin and greater wicking power than other garments such as cotton tees. Soft and smooth like silk and is completely non-irritating. Easy care, machine washable and dryable.

Team Clothing

CAFE

From the home of the world renowned Cafe de Colombia cycling team comes a well designed, exceptionally comfortable and remarkably durable line of clothing. Cut and stitched for the competitive cyclist, Cafe clothing has many features usually only found in more expensive lines. Special flat and tucked seams, bar-tacking and double stitching at stress points, heavy 8.5 ounce nylon/lycra and a smooth, anatomical cut are all standard with Cafe. Made in Columbia.

Cafe

COOL WEATHER CAPS

Designed for cool, crisp mountain riding in the Colombian Andes, this cap will keep you warm and comfortable wherever you ride. An extra wide elasticized, 360 degree black brim pulls down to completely cover your ears. Soft brushed, cotton lining, water repellant nylon/lycra outer in bright neon colors. Cut full, fits even X-large heads. One size.

CA-WC-(color) \$14.88

Colors - Neon pink, neon yellow
Campagnolo and Shimano

a CAFE LYCRA TIGHTS

Keep warm on cool days with Cafe's new lycra tights. The anatomical cut, comfortable drawstring waist and six leg hugging tapered panels with stirrups assure you of an excellent fit. Double stitched and tucked flat seams provide additional strength and comfort. Stress points are hemmed and bar tacked for rugged durability. 8.5 oz. nylon/lycra.

CA-LT-(color, size) \$39.88

Colors: Black or black w/ neon yellow panel

Sizes: S-XXL. Give waist and inseam

b CAFE SHOE COVERS

Smooth over rough shoe lines for time trials and triathlons or use these to give your feet an extra layer of warmth on cool days. Special flat seams are tucked and double stitched for maximum aerodynamics. Reinforced cleat area accepts LOOK and Time pedals. Low cut, soft rubber gripper lined cuff. 8.5 oz. nylon/lycra. Cut large. Give shoe size. Machine wash and dry.

CA-SC-(size) \$14.88 pr.

Colors: Black, neon pink, neon green and neon yellow

CAPS

Cafe Summer

Shield your eyes from summers glare with Cafe's lightweight cotton cycling caps. Unique 3 panel design is cut full, gently elasticized and lined with a soft cotton sweatband. Bright, vibrant colors will not fade, tough long lasting cotton is machine washable and dryable. Easily fits under your helmet. One size.

Runique Road Racing Socks

With every revolution you pedal the soles of your feet expand and contract against a hard shoe innersole and pedal platform. This often results in hot, tired feet that can become numb and later painful. Runique road racing socks have a generously padded heel and toe box and a unique two layer design which absorbs numbing road shock and completely eliminates friction and consequent heat buildup. Like us, you may find Runique socks so comfortable you will wear them on and off the bike. Well cut and sewn, extremely durable. Machine wash and dry. Made in USA.

RU-CS-(size) \$ 7.88 pr.

Sizes: 7-9, 9-11, 10-13, 13-16. White

SAVE MORE! 3 pair for \$19.88

Fabrice Philippot rides to victory using Carnac shoes.

CARNAC SHOES

EXCLUSIVELY
BY MAIL

Carnac shoes are handmade with soft, luxurious full grain leather uppers and highly advanced aerospace carbon composite soles. They come with conventional cleats and may also be used with LOOK, Mavic, Campagnolo and Shimano clipless pedals. The shoe of choice for many European professional riders, Carnac is now available in America exclusively by mail from Branford Bike. Made in France.

a Carnac Fancy

A soft brushed goatskin chamois lining, padded heel counter and tongue will cradle your foot in cool comfort even during hot 100 mile races. A tough, full grain leather and double weave nylon mesh upper is permanently bonded to the ultra-stiff and light carbon sole assuring you of efficiently turning power into speed. Rugged construction and top quality materials will give you years of performance. Double velcro closure with stainless steel buckles.

CA-FA-(Size) Sizes 37-48 \$159.88
White/Fuschia/Green

b Carnac Winner

Carnac's Winner model is identical to the Fancy except it has more subdued colors and a triple velcro and stainless steel buckle retention system that is slightly quicker to release from.

CA-WI-(Size) Sizes 37-48 \$149.88
Silver/Red

c Carnac Nevada

The Nevada is also meticulously handmade and shares many of the features of the more expensive professional Winner and Fancy models. Ultra-light carbon soles, full grain leather and double nylon mesh uppers and a secure double velcro strip and buckle closure accent this model. Designed for amateur racing and general riding. Used extensively by our Junior and Senior 3 and 4 riders.

CA-NV-(Size) Sizes 37-48 \$89.88
Black/Yellow

SIDI SHOES

d Sidi Genius

A new professional racing shoe from Sidi that has several excellent and well designed features including a strong and easy to use "ski buckle" retention system. Stiff rilson/carbon sole is LOOK drilled and comes with regular cleats. Tough Lorica synthetic leather and double weave nylon mesh uppers are extremely durable and will not stretch. Soft, lined and padded heel counter. Made in Italy.

SI-GE-(Size) Sizes 37-48 \$124.88
Black/neon yellow

e Sidi Contact

Designed for general riding and amateur racing, the Sidi Contact has many of the same features as the Sidi Genius. Non-stretchable double weave nylon mesh and Lorica synthetic leather uppers are permanently bonded to a stiff and light LOOK drilled Rilson/carbon sole. The heel counter is padded and a snug, double velcro strip and buckle securely holds your foot in place.

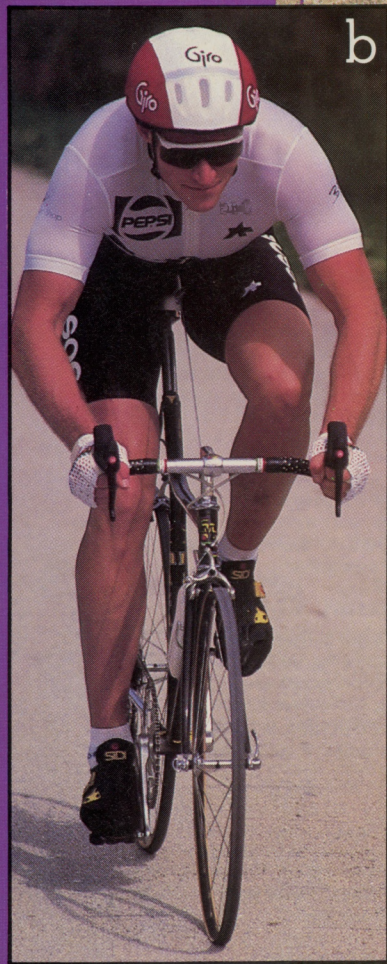

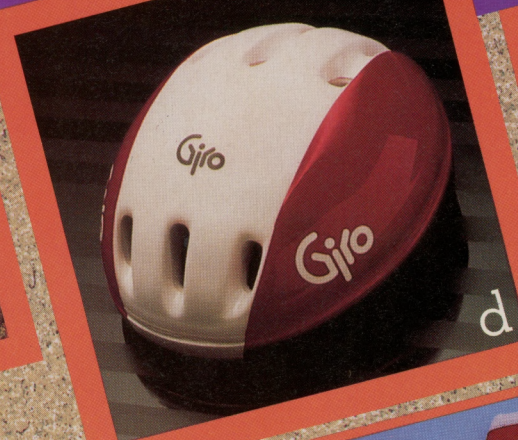

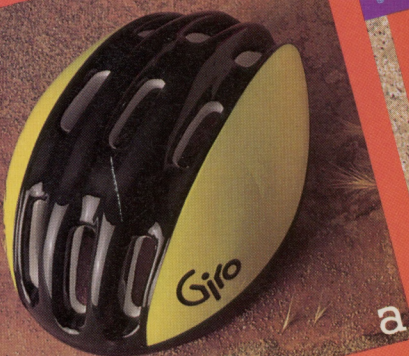

SI-CO-(Size) Sizes 38-47 \$79.88
Black/Neon Pink

SHOE SIZING

Let us know what brand and size shoe you are wearing now. We can cross reference it with our shoe sizing charts and guarantee you a perfect fit.

When your new shoes arrive try them on with socks and in a carpeted area. If you are not 100% satisfied please return them for a cheerful refund or exchange.

Helmets

EXCLUSIVELY BY MAIL

a GIRO HELMETS

Lemond Air Attack

At 6.5 ounces the LeMond Air Attack is so light and comfortable you will quickly forget you are wearing it. With nine oversize vents, you can still feel the rush of the wind whipping through your hair. If disaster should befall, you will appreciate the five internal "roll cage" reinforcements that will keep your head and helmet intact. Not only is this Giro's lightest helmet but it is also the coolest, safest and most durable. Expanded polystyrene shell with internal reinforcing and a tough Mylar cover. ANSI and Snell approved. USA. Runs large.

GI-HM-L (size) \$89.88
Sizes: XS-L Black/yellow

b Pro Light

Light, cool and very comfortable. 7.5 ounce expanded polystyrene shell with a replaceable lycra cover and interchangeable cotton sizing pads. Secure and easy to use quick-lock nylon strap and buckle retention system. ANSI and Snell approved. USA. Runs large.

GI-HM-P (size) \$69.88
with a red/white cover **Sizes:** XS-L
FREE: Team Branford cover with each Pro Light.

c Aerohead

Designed for time-trialists and triathletes, the new Aerohead helmet actually improves times by as much as 38 seconds over a 40 km. time trial as proven by Greg LeMond's 1989 Tour de France victory. The Aerohead sports a smooth tear-drop shape and a unique channeled flow-through ventilation system. Additionally, a rubberized fabric cover smoothes out wind resistance resulting in even greater speed.

GI-HM-A (size) \$124.88
XS-L, runs large

d Hammerhead

A heavy duty version of the Prolight designed to take the constant abuse of mountain bike riders. Tough, flexible, plastic cover fends off branches while the dense, lightweight shell gives you maximum protection. 8.5 oz. ANSI and SNELL approved.

GI-HM-HH (size) \$79.88
XS-L, runs large **Red w/white trim**

e HELMET COVERS

Like Oakley sunglasses Giro helmets are fun to wear as well as practical and safe. Now you can color-coordinate your helmet with your bicycle or pick a bright color for safety with these easy to install lycra helmet covers. Fits Giro Prolight and most other soft shell helmets. Solid colors with contrasting white mesh center panel.

GI-HC-PL (color) \$9.88
Black alligator skin, red, royal blue, neon orange, neon yellow, white and Team Branford Bike.

Aerohead Sharkskin

A smooth rubberized nylon lycra cover that sharply reduces drag and turbulence. Easy to install, one size fits all Aerohead helmets. Bright solid colors with a contrasting white center panel.

GI-HC-AH (color) \$24.88
Turquoise, pink, yellow, orange, blue and fluorescent green

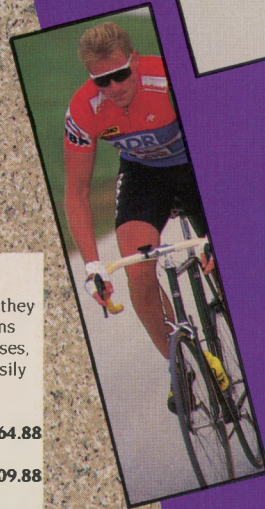

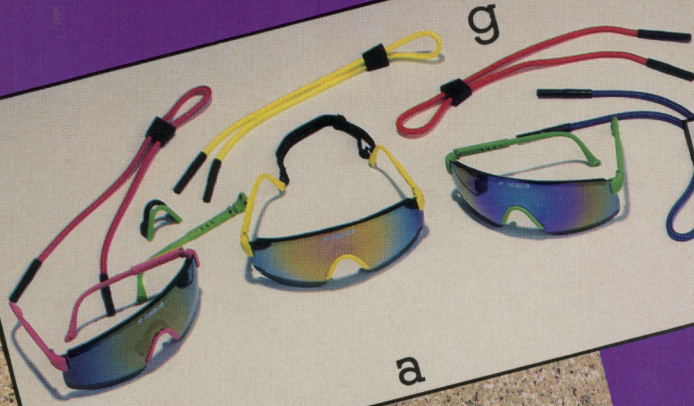

f HAIRNETS

Effrem

Worn by professional riders for decades and sanctioned for use in all PRO races. Not as protective as a hardshell but much cooler and more comfortable. Soft, Danish leather won't irritate sensitive, wet skin. Padded brim and ribs, full leather strap and chromed buckle. Italy.

EF-HM-(size) \$39.88
Sizes: Sm-54, Md-56, Lg-58, XL-60

EXCLUSIVELY BY MAIL

SOMEC

In Lugo, Italy, a town more medieval than modern, Somec frames are built in the traditional Italian manner, meticulously and one at a time. The tubes are precisely milled, heated and gently brazed. Each frame passes an array of inspections before leaving the workshop and upon returning from the painter. It is checked each time for frame alignment, braze coverage, lug fit, fork rake and fork alignment. The resulting frames are always quick, responsive, and immaculately finished.

After a frame is brazed it is filed, polished and then dipped in oil to prevent it from rusting until it gets to the painter. At the paint shop, each frame is cleaned and nickel plated. Next, it is fully chromed and primed twice for maximum rust protection. Then, two coats of paint are sprayed on and oven baked for a brilliant and scratch resistant finish. Engraved lugs, seatstay caps and fork crown are hand painted as are pinstripes wherever paint meets chrome. Finally, decals are hand-applied and the entire frame is clear coated.

Stellar TS

Stunning workmanship and an unparalleled finish are Somec's trademark and clearly evident in his Air TS model. A midnight sky headtube fades into a dramatic pink and yellow sunrise accented with pink, green and yellow starbursts. Special fastback seatstays and seat lug are Somec engraved. Unique, airfoil laser bottom bracket shell is investment cast, as are all lugs and the Somec engraved fork crown. Internal brake cable, double chromed and polished seatstays, chainstays, fork blades and front derailleur mount. Full braze-ons including pump peg, chain hanger and two water bottles. 73/74 angles. Columbus TSX tubing. Italy

SO-ST-(size) \$988.00
Sizes: 48, 50, 52, 53, 54, 55, 56, 57, 58, 60 and 62cm c/c.

Air Corsa

Superb craftsmanship has created a beautiful iridescent white finish with red, green and sky blue gently fading stripes. Hand finished trim includes Somec engraved seat stays, seat lug, fork crown and pinstripe detailing wherever paint meets chrome. Special fastback seatstays and airfoil bottom bracket shell. Investment cast lugs, bb shell and fork crown. Internal brake cable, full braze-ons including a pump peg, chain hanger and two water bottles. Comfortable road racing angles. 73/73. Columbus SLX tubing. Italy

SO-SC-(size) \$888.00
Sizes: 48, 50, 52, 53, 54, 55, 56, 57, 58, 60 and 62cm c/c.

MAZA

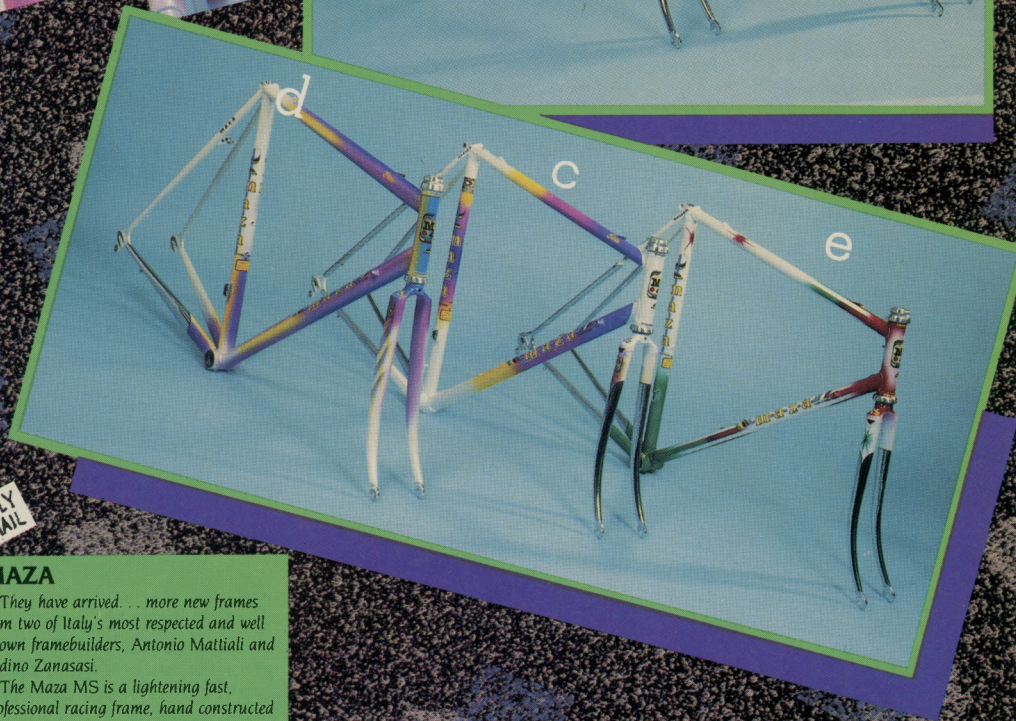

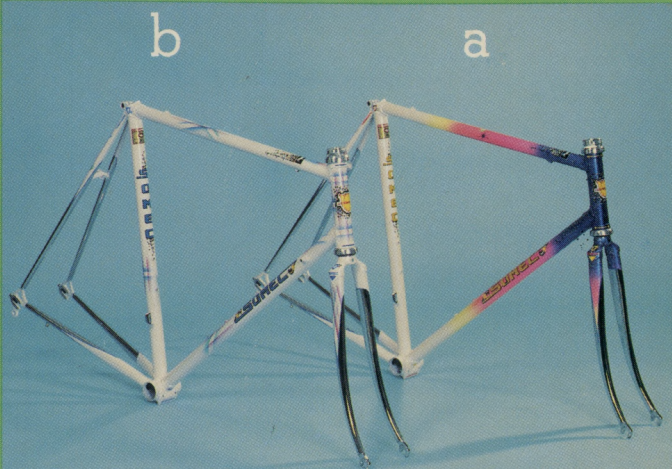

They have arrived... more new frames from two of Italy's most respected and well known framebuilders, Antonio Mattiali and Sodino Zanasasi.

The Maza MS is a lightening fast, professional racing frame, hand constructed with Columbus multishaping tubing. The Maza MAX is a smooth and powerful road racing machine. Both are completely handbuilt in the traditional Italian way: one tube at a time, slowly and very carefully.

Crit MS

Significantly faster, stiffer and more responsive than even the finest handbuilt SLX, aluminum or carbon frames. Designed for serious competition and professional racing. Micro fusion cast lugs, bottom bracket shell and fork crown. Full braze-ons, including two water bottles, pump peg, chain hanger and internal top tube brake cable guides, front derailleur mount and shift levers. Columbus MS (multi-shape) tubing. Engraved fork crown and seat stay caps, chromed Campagnolo dropouts, fork blades, chainstays and seatstays. Pearlescent white with a finely detailed royal purple, magenta and yellow fade paint. Matching yellow decals. 74/74 angles. Italian threading. 48-62 cm. 4.9 pounds

MA-MS-(size) \$1,088.00
Sizes: 48, 50, 52, 53, 54, 55, 56, 57, 58, 60 and 62cm c/c.

Promax

The Maza MAX is smoother riding than aluminum or carbon and even faster and more responsive than the Maza MS. Why? This frame features the new Columbus MAX tubing set. Like MS it is shaped to provide maximum power transmission with minimal flex. MAX goes further with a 20% stronger Nivachrome steel alloy that allows for varying diameters of round and elliptical tubes. Because MAX tubing is so strong, it doesn't require lugs. This frame is not only our strongest but also our lightest. The 73 1/2 parallel angles further compliment this smooth and powerful road racing frame.

Like the MS, the MAX has full braze-ons and a beautifully crafted pearlescent white, royal purple magenta and yellow finish. The fork crown, seatstays and brake bridge are engraved. Front and rear dropouts are chromed, as is the right chainstay. Tig welded. 4.5 pounds. Italian threading.

MA-MA-X(size) \$1,288.00
Sizes: 50, 52, 53, 54, 55, 56, 57, 58, 60 and 62cm c/c.

Signature - TSX

Dramatically finished with Italy's national colors. A brilliant red fades into a pearlescent white which flows into a deep, bright green. Stunning red and green starbursts and rich yellow decals further accent this beautiful new frame from Maza. Seatstay caps, brake bridge, bottom bracket shell and fork crown are Maza engraved and hand finished. Entire frame is chromed; seatstays, chainstays, fork and front derailleur mount are polished to a brilliant lustre. Carefully pinstriped wherever paint meets chrome. Full braze-ons including pump peg, chain hanger and 2 water bottles. Italian threading, internal brake cable. Columbus TSX tubing. 73/74 angle. Italy

MA-SI-(size) \$988.00
Sizes: 48, 50, 52, 53, 54, 55, 56, 57, 58, 60 and 62cm c/c.
*Available May 1st.

GARDIN Team Pro

A serious competition frame handbuilt with Columbus SLX/SPX tubing and investment cast lugs, bottom bracket shell and fork crown. Tough baked on acrylic/enamel paint with a completely chromed fork. Full braze-ons including two water bottles. Classic stage racing geometry of 73/74 degrees will give you a comfortable and responsive ride in all types of races and road conditions. Excellent for criteriums, road racing or general riding. 48-62cm in even cm increments. Italian threading. Canada.

GA-SI-XC (size) \$795.88

TRIATHALON FRAMES Nitro Series

The new Nitro series of triathlon frames from Gardin will improve your cycling time, give you greater comfort and make your transition from running to cycling easier and more natural. The 82 degree seat tube puts you further over the pedals and, combined with extended bars, gives a more comfortable, aerodynamic, efficient and powerful riding position. This new aerodynamic position allows you to predominantly use your "running" muscles and thus can make your cycling more efficient and natural. Riding a Nitro series bicycle is like running with two wheels.

Nitro Pro

A top level competition frame available with 700c or twin 26 inch wheels. Hot, custom paint; every frame is uniquely finished. Tough, ultra-light Excel aerospace double-butted chrome moly steel tubing for maximum stiffness, durability and responsiveness.

Precision cast lugs, bottom bracket and fork crown. 82 degree curved seat tube, tight 38 inch wheelbase and shortened top tube for unparalleled comfort and speed. Full braze-ons, British threads. Canada.

Frames: 700c wheels w/ gloss white and black splash finish. GA-NP-7(size) \$795.88

26 inch wheels w/ gloss white and black swish finish GA-NP-6(size) \$849.88

Sizes: 48, 50, 52, 54, 55, 56, 57, 58, 60 and 62 c/c

Nitro Mach 1

A mid-level competition frame with identical geometry to the Nitro Pro. Handbuilt with Columbus Chromor strong and light double butted chromoly steel tubing for excellent responsiveness and durability. Bright hot pink and purple overspray finish is baked on for maximum resistance to scratches and nicks. Micro-fusion cast bottom bracket shell and fork crown, 82 degree curved seat tube, 700c wheels, shortened top tube and tight 38 inch wheelbase assures you of easier transitions, greater comfort and more power. British threading. Canada.

Frame: 700c wheels w/ neon pink/ purple finish GA-NI-M7(size) \$595.00

PROFILE FOR SPEED

Air Raid 80

The ultimate carbon fiber professional triathlon frame for the 1990's. Designed for world class competition with an 80 degree seat tube, twin 26 inch wheels, shortened top tube and ultra stiff wishbone seatstays. Superlight - 4.0 pounds. High gloss tough white finish. Lifetime guarantee against failure, cracking or delamination. Made in USA. Comes with a Tange Fusion II aluminum fork.

PR-AR-8(size) \$1,288.00
Sizes: 54, 56 and 58 by March 15th, more sizes later.

Competition wheels, tires and discs in stock for all 26" bicycles

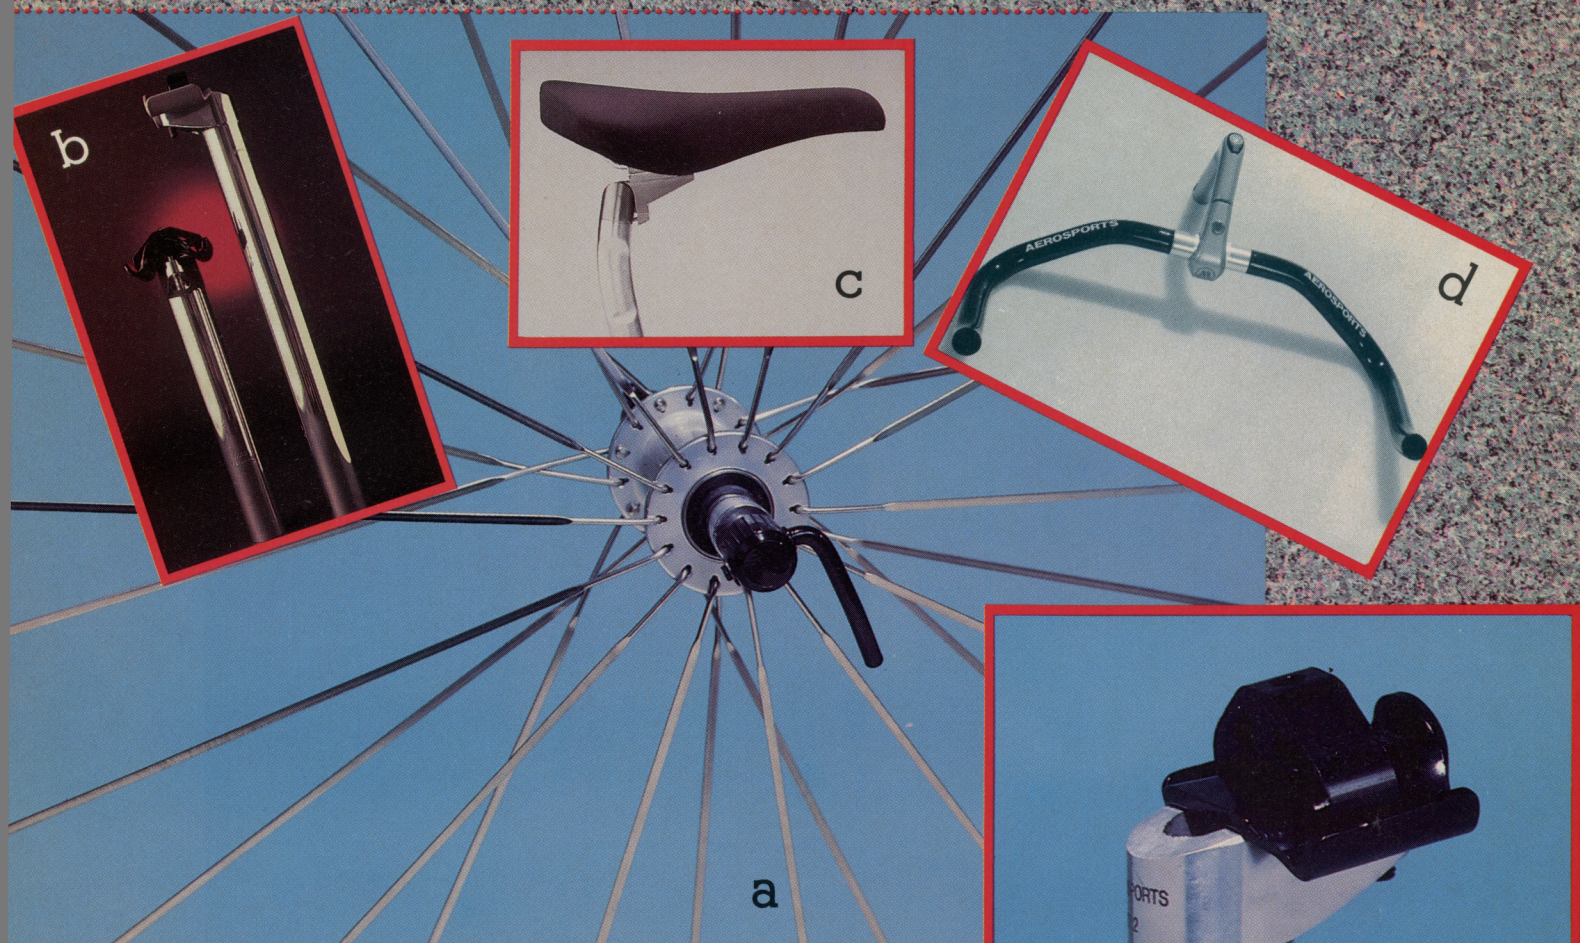

Gardin Kronos

Specifically designed for time trials, the Kronos sports a curved top tube, seat tube and 26 inch front wheel. Full braze-ons, including one water bottle, front derailleur mount and shifters. Built with Oria Kronos tubing which is stronger than SLX, and factory curved and heat treated to withstand the rigors of professional use.

Italian threads. On a Kronos style frame you are allowed to go up or down a centimeter and still achieve a proper fit. Ferrari red and white fade with contrasting black decals or neon yellow and pink. 5.2 pounds, 37 inch wheelbase. 50, 53, 56 and 59 cm. measured center to center.

GA-KR- (size) \$695.00

Ultra Performance

EXCLUSIVELY
BY MAIL

AMERICAN CLASSIC

We are impressed with the consistently high quality products designed and built by Bill Shook and Alan Kingsbery of American Classic. Bill and Alan share an extensive racing history and intimately understand the critical link between components and a rider's performance. That understanding, combined with expert design and skillful machining, has culminated in superior competition components.

Classic Hubs

A sleek, smooth and incredibly fast pair of hubs that has been our #1 selling hubset since 1987. American Classic hubs are feather light at 200 grams for the front and 250 grams for the rear. Bearings are easily replaceable, virtually impervious to dirt and water, maintenance free and spin 30% faster than any open bearing hub. The heat-treated alloy hub body and extra beefy flanges easily take the abuse of professional racing even under radial lacing loads. Highly recommended. Silver anodized or tough epoxy powder coat gloss black finish. Also available for mountain bikes in a 135mm version.

AC-FH- \$109.88 pr.
(drilling, road or mtn. bike, color)
Drillings: 12, 16, 18, 24, 28
and 36 holes
Single hubs
AC-FH- front or rear \$59.98 ea.
(drilling, color)

Classic Skewers

These ultra-light cam action quick release skewers weigh less than half of Campagnolo or Shimano's and are more aerodynamic. Essential for disc wheels; will fit all hubs.

AC-SK- (front or rear) \$14.88 ea.

Black

See the Tune-up page for hub bearings and spare parts

Classic Seatpost

This solid and ultra-light heat treated post has a one bolt micro-adjusting cradle that will securely position your saddle while quickly trimming excess weight from your bicycle. The standard 200mm length weighs only 168 grams and is almost an inch longer than Campagnolo. The 300mm post is over 4 inches taller, has a thicker wall for maximum strength yet weighs a trim 290 gr. Anodized silver or gloss black tough epoxy powdercoat finish.

AC-20-(size) 200mm \$39.88
AC-30-(size) 300mm \$49.88
Sizes: 25.0, 26.0, 26.6, 27.0, 27.2 and 27.4.

PROFILE FOR SPEED

Aero Pro SP Seatpost

Tired of sliding your seat forward to accommodate extended bars and then being perched painfully on the tip of your saddle? The Aero SP post will give you up to 5cm (2 inches) of additional forward extension thus simulating up to a 90 degree seat tube angle. Silver. Made in USA.

PR-SP-(size) \$59.88

Sizes: 26.8, 27.0 and 27.2

AEROSPORT

Aerosport is a world renown leader in graphite component technology and has amassed an impressive string of victories at home and abroad with its ultra-performance products. The U.S. Olympic team, U.S. Worlds team, Soviet National team and thousands of individual amateur and professional riders have benefitted victoriously from the well proven advanced technology of Aerosport components.

Carbon TT Handlebars

Aerosport carbon TT bars are used extensively by world class triathletes and time trialists. Their carbon bars are superlight (120 grams) and exceptionally comfortable because of the unique shape and graphites outstanding ability to absorb road shock. Internal cable routing. Accepts all clip-on bars. One width - 40cm. c/c/ - Gloss black wrapped carbon fiber finish.

AS-TT-Bar \$89.88

Carbon Ultra-light Seatpost

Like Aerosport's TT bars this seatpost is super light (135 grams) and exceptionally comfortable due to graphites unique shock absorbing properties. We noticed an appreciable difference in riding comfort. Easy one bolt saddle adjustment, extra long 300mm post can be custom cut for further weight reduction. Flat black carbon wrap finish.

AS-SP-(size) \$89.88

Sizes: 25.0, 26.8, 27.0 and 27.2

Ultra Performance

AEROSPORT

Trialist - Compression Disc Wheel

Light, strong and shock absorbing, the Aerosport Trialist disc wheel is well designed for the competitive cyclist. Two ultra-light, tough, smooth and factory trueable Kevlar face sheets are laminated to a shock absorbing Nomex honeycomb core. This unit is bonded to a specially designed high flange sealed bearing alloy quick-release road hub and a replaceable rim that is 6061 heat treated and hard anodized. If you ever manage to damage this wheel, just send it back to us for an overhaul and if needed factory truing. Aerosport disc wheels are tough and built to last.

AS-TR-T \$449.88
700c tubular, rear
Colors: Black or high gloss white.
1040 grams
AS-TR-T26 \$525.88
26 inch tubular, front or rear
Color: High gloss white. 830 grams

Accel - Tensioned Disc Wheel

Aerosport Accel disc wheels are "tensioned" instead of "compression" (see Disc Wheels Explained) and thus are lighter, faster, more responsive and aerodynamic than even the finest spoked wheels. Designed for the professional cyclist who demands the absolute optimal performance from his/her components. Victoriously ridden by 1st, 2nd, and 6th place winners in the 1989 World Triathlete championships in France. Natural finish for lightest weight. 700c - 710 gr, 26 inch - 525 gr, 24 inch - 408 gr.
AS-AC-(size, front, rear) \$1,188.88
Road or track

CAMPAGNOLO

Khamsin-Compression Disc Wheel

Campagnolo's Khamsin disc wheel has a unique hub that is easily interchangeable between road and track by simply changing the axles. The Khamsin's facesheets incorporate a 1/4 inch stiff honeycomb ply so the wheel's core is hollow thus further reducing weight. A heat-treated alloy rim, open bearing specially designed Campagnolo hub complete this versatile disc wheel. 700c or 26 inch, front or rear, road or track versions. Made in Italy.

CA-KH-(size, style) White \$649.88

Track Axles

Track axles are needed to convert the Khamsin to track use. Comes complete with cones and 15mm chromed locknuts.

CA-TA-(front or rear) \$29.88 ea.

HED CX PRO

Extensive wind tunnel testing at Texas A&M University proves that the Hed CX wheel is more aerodynamic than standard spoked wheels, carbon spoked wheels and many disc wheels. Additionally, it is barely affected by crosswinds and will not act as an airfoil causing instability in cornering. The light and shock absorbing carbon fiber rim is strong enough to support 200 pounds without spokes; spokes are only used to hold the hub in place. Two models; 16 spokes for mass start events and rear wheels, 12 spokes for time trials and triathlons. Completely built with American Classic hub and DT bladed spokes
840 gr. USA
HD-CX-(drilling) \$388.00

GRIP SHIFT PRO

Widely used by top riders such as Mark Allen, Scott Molina and Ken Souza. Completely redesigned with a smaller profile that shifts quickly and precisely with 20% less rotation. Soft, easily replaceable foam grips come in six bright colors. Simple to install, fits all handlebars. No drilling required. Complete with cables and instructions. USA.

GS-(model) \$99.88
Note: State bar type, rear derailleur, model and 6, 7 or 8 speed capacity when ordering.

DISC WHEELS EXPLAINED

Compression vs Tensioned

Compression disc wheels have two rigid faceplates that fully support your weight. They are unforgivingly stiff and thus are a little harsher to ride and less lively than comparable wire spoked wheels.

Only when a regular wheel's spokes are tensioned will the wheel have enough strength to be ridden. Tensioned disc wheels gain their strength from two super strong but flexible Kevlar sheets that are stretched like a drum head from the hub to the rim. This results in a disc that is responsive like a wire spoked wheel but more aerodynamic and thus substantially faster.

Aerodynamics

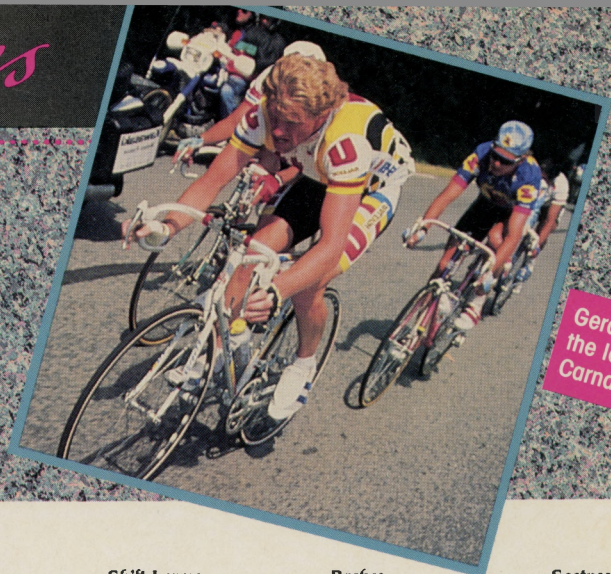

On the rear a disc wheel is more aerodynamic under all wind directions than a wire or carbon spoked wheel.

On the front a disc is more aerodynamic only when the wind is calm or you are headed directly into it.

In crosswinds or gusty conditions, a rim with as few wire bladed spokes as possible will give you maximum aerodynamics and efficiency.

Our comments are based on wind tunnel tests done by Steve Heddt at Texas A&M University.

PROFILE FOR SPEED

Aero I

Redesigned with flattened drops which provide more power and better handling in out of the saddle sprints and climbs. Pre-drilled for Swift Shift mounting. Improved arm rests are softer, thicker and more durable. Flat black. 425gr. Fits all stems; comes with shims. USA.

PR-A1- \$79.88

Aero II Clip-on

Now 22% lighter and available in three widths for a perfect fit. New arm cups are softer, more comfortable and durable. Aero II clip-ons are invertable for lower road bike positions or for mountain bikes. Pre-drilled for Swift Shift. Flat black. 411 grams. Complete with deluxe cups, hardware and easy to follow instructions. USA

PR-A2-(width) \$64.88

Width: 7, 8 and 9 inches center to center

Aero II Replacement Bars

Upgrade your old Aero II's for Swift Shift or change to a different width for more comfort. Flat black, bar only. 7, 8 or 9 inch width.

PR-A2-RB(width) \$29.88

Aero III

Designed for professional time trialing over a wide range of courses and conditions. Five different hand positions for maximum power and aerodynamics. Comes with adjustable deluxe armrests and is pre-drilled for Swift Shift. Fits all stems; comes with shims. Neon yellow. 480 grams. USA.

PR-A3- \$99.88

Dave Scott Pro

Designed by Dave Scott for the athlete who demands the most from his/her equipment. Comes complete with ultra-light stem, airfoil bladed main bar, adjustable extension bar for optimal fit, deluxe armrests and Swift Shift. Height, angle and length are adjustable. Flat black. USA

PR-DS- \$149.88

Profile Deluxe Armrests

Easily attaches to all handlebars. Super light composite construction. Soft, comfortable and durable pads. Black. 2 to a package. USA.

PR-AR- \$24.88 pr.

SWIFT SHIFT

Easily fits all new Profile bars and braze-on shift levers. Securely bolts on. Allows for simpler shifting in a perfect tuck position. Complete with cables and stops. USA.

PS-SS \$39.88

CINELLI

Cinelli handlebars and stems have been around for as long as we can remember. Every year they outsell everything else. Why? Because they are light, comfortable and perform flawlessly. Cinelli is the winners choice and should be yours too. Italy.

HANDLEBARS

Model 64 38, 40 and 42cm wide

Designed for casual riding with small drops and a generous amount of room on top. 335gr.

CI-64-(width) \$22.88

Model 65 38, 40 and 42cm wide

A criterium bar designed mainly for riding on the drops. Moderate drop, shallow curve-like bend on top. 335gr.

CI-65-(width) \$22.88

Model 66 40, 42 and 44cm wide

With a deep drop and generous room on top, this bar is tailored for road racing or long weekend rides. Affords more hand positions than any other Cinelli bar. 340gr.

CI-66-(width) \$22.88

Model 67 39cm wide only

Specifically designed for track use. Deep drop, full curved top. Use with the 2-A track stem. 335gr.

CI-67-39 \$29.88

Model LA 84 40 or 42 cm wide

Originally used in the 1984 Olympics with great success. Now used by triathletes with clip-on bars and time trialists with 24 or 26 inch front wheels. "Horns" are extra long and designed to be cut to your size. 330gr.

CI-62-(width) \$29.88

STEMS

1-A

Our most popular and lightest model. Smooth, satin finish, solid creak-free clamping mechanism. Silver. 7-14cm in even cm increments. 292 gr. 26.4 bar diameter.

CI-1A-(size) \$24.88

2-A

Identical to the 1-A but has a 2cm deeper drop for track riding. Silver, 10, 11 and 12cm. 292gr. 26.4 bar diameter.

CI-2A-(size) \$29.88

XA

Solidly and securely grips your bars. Trim and aerodynamic like the old recessed bolt 1-R but without the creak! Soft, satin silver anodized, finish. 26.4 bar diameter. 8-13cm in one cm increments. 274gr.

CI-XA-(size) \$29.88

HANDLEBAR TAPE

Bike Ribbon

A thin padded vinyl tape that will give you miles of comfort. Five bright colors. Dirt and stains easily wash off with a damp cloth. Self adhesive, easy to apply. Enough to do one set of regular bars. Italy

BR-BT \$3.88

Colors: White, black, yellow, red or blue

Marble Finish Bike Ribbon

A classic marbled finish that gracefully accents a finely crafted bicycle. Tasteful and different without being outlandish. Outstanding comfort and durability. Enough to wrap a regular set of bars.

BR-BT-G \$4.88

Colors: White/black, white/red, white/blue or yellow/black

Cinelli Cork Ribbon

Soft, luxurious and wonderful to place your hands upon. Wide, padded ribbon is self adhesive and simple to apply. Stains and dirt are easily removed with a damp cloth. Complete with chrome Cinelli plugs and silver embossed finish tape. Enough to wrap a regular set of bars. Italy.

CI-BT-(color) \$10.88

Colors: White, black, yellow, red or blue

Benotto

Bright, rich colors are imbedded in a sure gripping tough and ultra-violet resistant polymer base. Two rolls of tape and matching plugs per package is enough to wrap one set of regular bars.

BE-BT- \$1.48

Colors: White, black, gray, yellow, red or blue

Suggestion: Try double wrapping with two different colors for a peppermint stick finish!

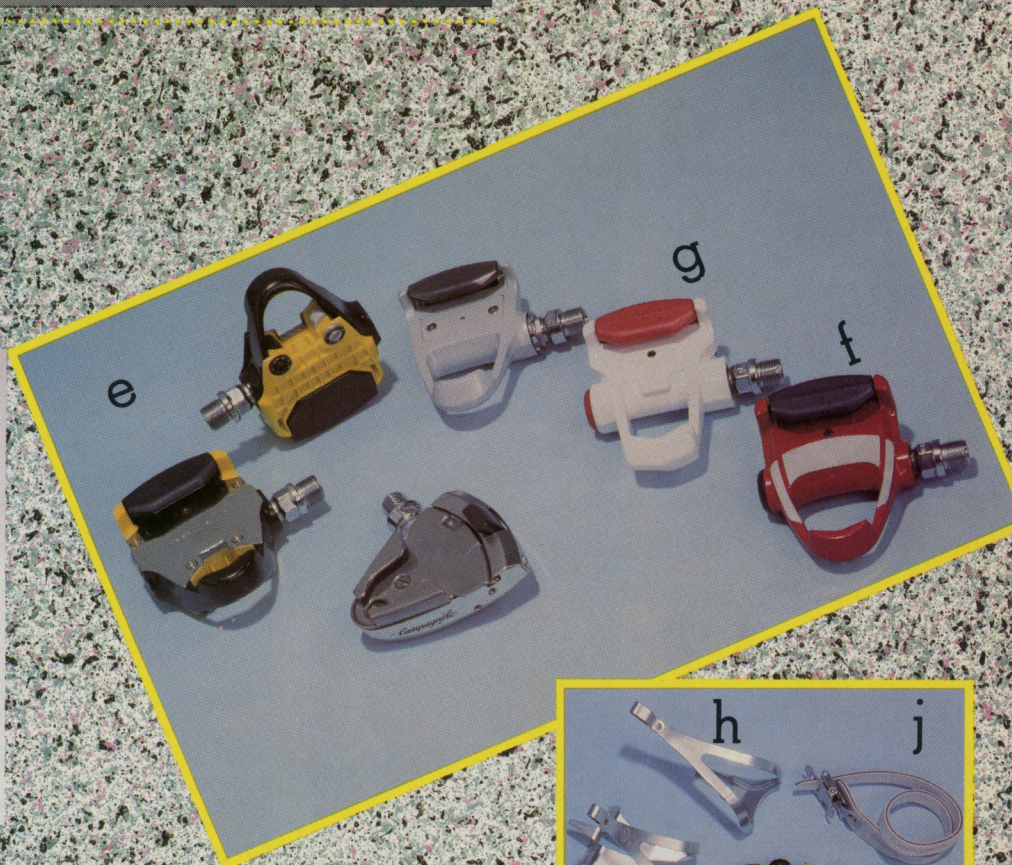

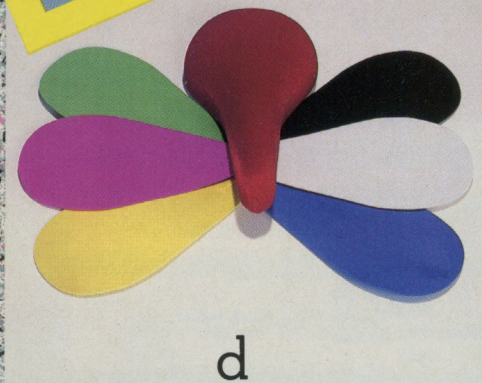

Traditional Cloth

Woven with a soft, padded blend of cotton and polyester for a comfortable and solid grip. Bright, rich colors are fade resistant and won't rub off on your gloves or hands. Self adhesive, easy to apply. Makes a good base for Benotto or other tapes when you need more comfort. Two rolls to a package, wraps one regular handlebar. Japan.

CH-BT- \$2.88 pck 2

Colors: White, black, red or blue

Saddles, Pedals

SADDLES

Turbo

An excellent racing saddle with a sleek aero shape, well padded nose and durable buffalo hide cover. Suede finish black or smooth white. 263gr. Italy.

BH-TS-(color) **\$27.88**

Womans Turbo

Same outstanding comfort as the standard Turbo with a dense, urethane pad and tough buffalo hide covering. Anatomically designed for women with a wider back, extra padding and a shorter nose. Suede finish black or smooth white.

BH-LT-(color) **\$27.88**

Rolls

Appropriately named, this is the Rolls Royce of saddles. Rich, full grained water buffalo hide is expertly cut and fitted onto a resilient nylon shell and over a dense shock absorbing urethane pad. Trim and accents are in hand polished 22kt gold. Excellent support and comfort. Suede finish black or smooth white. 267gr. Italy.

RL-SD-(color) **\$39.88**

SADDLE COVERS

Cafe

Hand-cut and carefully stitched 7.5 ounce nylon/lycra for a protective and wrinkle-free fit. Excellent protection from summer's sun, rain, roof racks and black shorts. Rich, vibrant colors including new neons. One size fits mens or womens saddles. Columbia.

SE-SC-(color) **\$3.88**

Colors: Red, blue, black, white, neon yellow or neon pink

PEDALS - CLIPLESS

Mavic 646

Mavic 646 clipless pedals are feather-light at 440 grams and now exceptionally comfortable with 0 to 10 degrees of pedal body adjustable lateral rotation. Sophisticated design is complimented by a carbon composite/aluminum body, sealed maintenance free bearings and adjustable release tension. Uses standard LOOK cleats, included. 32 degree cornering. France.

MA-CP- **\$169.88 pr.**

LOOK 96

Lighter, slimmer and easier to use than earlier models. Release tension is adjustable and a new red cleat allows for 9 degrees of cleat lateral rotation. May also be used with standard LOOK black cleats but without rotation. 32 degree cornering angle. Red cleats included. France.

LO-CP-96 **\$179.88**

LOOK 76

Sealed bearings, 29 degree turn angle, carbon fiber clip and a surprising light alloy body. Comes with black cleats. Adjustable release tension. 434gr. France.

LO-CP-76 **\$144.88**

Red

LOOK 66

The classic white clipless pedal. Red derlin clip, lightweight white alloy body, 29 degree turn angle and adjustable release tension. Complete, with black cleats. 530gr. France.

LO-CP-66 **\$99.88**

Campagnolo SGR, Shimano Dura-Ace and 600 Ultegra pedals listed with Campagnolo and Shimano groupings.

REPLACEMENT CLEATS

Black LOOK

—fits all LOOK, Shimano and Mavic pedals. Complete with hardware.

LO-PD-CL **\$9.88 pr.**

Red LOOK

—for LOOK model 96 only. Complete with hardware.

LO-PD-CL96 **\$9.88 pr.**

Campagnolo SGR

—for SGR pedals. Fits standard LOOK drilled shoes. Complete with hardware.

CA-CL- **\$19.88 pr.**

TOE CLIPS

Campagnolo C Record/Chorus/Athena. Heat treated silicon magnesium alloy with a special ribbed base for extra rigidity. Italy.

CA-CR-TC Alloy **\$24.88 pr.**

CA-AT-TC Steel **\$12.88 pr.**

Sm, Med., & Large

Campagnolo Super Record/Croce. The same durable silicon magnesium alloy as used in C Record but with a conventional—mounting that will fit virtually any pedal. Strong, stiff and easy to get into and out of. Italy.

CA-SR-TC Alloy **\$19.88 pr.**

CA-SR-TCS Steel **\$14.88 pr.**

Medium and Large

TOE STRAPS

Campagnolo

Two layers of full grain, top cut cowhide are sandwiched around a tough, non-stretching nylon strip. Smooth pure white top is richly embossed with blue Campagnolo script. Stainless steel easy locking buckle. Italy.

CA-CR-TS **\$24.88 pr.**

Binda Prestige

New toe strap that incorporates the same laminated design of the Binda extra but uses full grain buffalo hide, a new stronger buckle and a widened shoe impact area for greater comfort. Italy. Bone white.

CI-TS-BP **\$19.88 pr.**

TOE STRAP BUTTONS

A very convenient item. Easily screws on to the end of your toe straps providing a positive grip for sweaty fingers at the starting line or before the sprint. Five bright colors to match your tape and cables. Spain.

TS-B-(color) **\$2.88 pr.**

Colors: Black, white, yellow, blue and red

FREEWHEELS

Maillard Super Course

Fifteen times the winner of the Tour de France, this is our most trouble free and durable freewheel. Heat treated duro-finish bright silver cogs. Hardened alloy steel body. Easy two prong Suntour style removal system. France. 350gr.

MA-76-(size) 6 speed \$29.88
MA-77 (size) Ultra 7 speed \$39.88

• Recommendations:

Use with **Sedis PRO** chain for maximum durability. Not recommended for Syncro Shifters...

Regina America

Smooth shifting and silent spinning are yours when you pedal with Regina. Wide range of sizes to choose from. Simple splined removal system. Matte silver finished cogs. Italy. 375gr.

RE-A6-(size) 6 speed \$39.88
RE-A7-(size) Ultra 7 speed \$49.88
RE-A6-1520 15-20 6 speed \$49.88

• Recommendations:

Use the **Regina CX** chain with the 6 speed the **Regina CXS** chain with the 7 speed for best performance and maximum durability Syncro compatible.

Regina America SL

With the exception of Campagnolo this is the best alloy freewheel we have ever offered. Over 100 grams is saved by using heat treated alloy cogs on a traditional America body. Perfect for that super light set of wheels you use on special occasions. 275gr. Italy.

RE-SL-6(size) 6 speed \$84.88
RE-SL-7(size) Ultra 7 speed \$94.88

• Recommendations:

For both 6 & 7 speed use the **Regina 50 SL** chain with hollow rivets and beveled plates.

Campagnolo

Our finest and most popular alloy freewheel. Both the cogs and body are furnace heat treated super light alloys. Professional riders and our teams commonly cycled 3,000 to 4,000 miles before there was appreciable cog wear. Excellent for competition riding; durable enough for every day use. Ultra-light; 175gr. Italy.

CA-SR-(size) 6 speed \$199.88
Spare Cogs \$39.88
7 speed narrow Call

• Recommendations:

Use with a **CX** or **CXS** chain and lube with **Campy** chain oil.

Shimano

Unique twisted tooth design meshes well with the Dura-Ace chain and SIS components. Semi-sealed design blocks dirt and water infiltration. Easy splined removal system. Japan 410gr.

DA-F6-(size) 6 speed \$47.88
DA-F7-(size) 7 speed \$54.88

• Recommendations:

Use only with the **Dura-Ace** chain for smooth shifting and long life.

CASSETTES

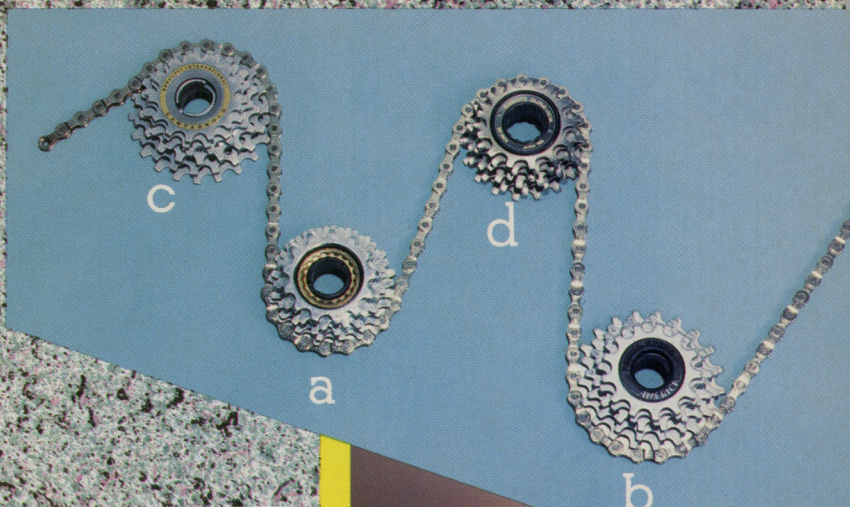

Dura-Ace

Heat treated cro-moly steel for longest wear and smoothest shifting. For Ultegra or Dura-Ace cassette hubs.

SH-DA-C6 6 speed \$24.88
SH-DA-C7 7 speed \$29.88
SH-DA-C8 8 speed \$39.88

Note: The 8 speed cassette only fits on an 8 speed hub. 6 & 7 speed are interchangeable.

Free Wheels, Chains

CHAINS

Sedis Sport Pro

Special beveled inner plates mesh well with Maillard and Sun Tour freewheels. Fully heat treated and nickel plated for smooth and quiet shifting on Ultra or regularly spaced freewheels. France. 340gr.

SE-PR-CH \$29.88

Sedis Sport Black

A good inexpensive chain that should be used with a good inexpensive freewheel. (See sidebar on freewheel compatibility.) Beveled inner plates are surface heat treated only. France. 330gr.

SE-SP-BCH \$7.88

Regina CX

An old favorite that has earned its laurels. Nickel plated and fully heat treated so you are assured of getting the maximum life out of your Regina or Campagnolo 6 speed freewheel. Italy. 339gr.

RE-CX-CH \$29.88

Regina CXS

Designed for seven speed ultra freewheels. Nickel plated, fully heat treated with special curved backplates for quickest shifting. Use with your Regina or Campagnolo 6 or 7 speed freewheel for greatest longevity. Italy. 325gr.

RE-CX-SCH \$34.88

Sedis Sport Track

An excellent, solidly built chain designed for 1/8 pitch cogs and track use. Beveled plates, fully heat treated. France. 370gr.

SP-TR-CH \$12.88

Regina 50 SL

Designed for use with Regina alloy freewheels. Unique hollow pin construction saves about 70 grams. Beveled plates are heat treated and mesh perfectly with either Regina SL 6 or 7 speed freewheels. Italy. 272gr.

RE-CA-50 \$18.88
Black

Shimano Dura-Ace

Meshes beautifully with Shimano's unique twisted tooth freewheels and cassettes. Nickel plated and fully heat treated. Japan. 345gr.

SH-DA-CH \$32.88

TRACK AND ROAD FIXED COGS

Single, fixed position cogs are excellent for training because they force you into a steady, even cadence. Designed for track hubs, these single speed cogs will also work on road hubs as long as you don't pedal backwards. Heat treated, hardened steel. West Germany.

Steel Heat-Treated Track Cogs— 3/32" pitch

13-21 teeth (for use with a road chain) \$9.88

Steel Heat-Treated Track Cogs— 1/8" pitch 12-20 teeth

\$9.88

Spare Track Lockrings-Campy

\$9.88

FREEWHEEL AND CHAIN COMPATIBILITY

Freewheels and chains wear in together. Chains stretch and the space between the teeth on individual freewheel cogs widens. Inexpensive or mis-matched chains stretch more quickly and will soon skip over cogs. For smoothest shifting and greatest durability carefully match your chain and freewheel.

TIRE CARE TIPS

Good tires are expensive and will last much longer if you just give them a little extra care by following these tips:

1. Before riding always bring your tires up to a standard pressure. Double check the pressure with a good hand held gauge.

2. After riding, bring your tire's pressure down to 30 psi and hang the wheels or bicycle off the floor.

3. Never allow glue, tar, grease, etc. to build up on your tire's sidewalls. Remove promptly with a mild solvent like CARE rim cement remover.

4. Periodically wash your tires and treat the sidewalls with latex sidewall solution. Fill tread nicks with Treadstop. This prevents casing rot and subsequent sidewall punctures or blowouts.

5. Always store new tubulars or foldable clinchers on clean rims free of old glue, grease, etc. This prevents sidewall and tread deterioration due to folds or creases. Additionally, it pre-stretches the tire making it much easier to install.

6. Store new tires in a cool, dark place hung up and mounted on clean rims.

EXCLUSIVELY
BY MAIL

CONTINENTAL

Ridden victoriously for years by European pros Continental tires are now available in America. Designed with a tough, almost puncture-proof polyamide casing and a remarkably fast and responsive tread compound. Six tubular and four clincher models to choose from. West Germany.

"In a triathlon every second counts, that's why I count on Continental."

— Scott Molina,
World Class Triathlete

"Continental gives me the edge over the competition."

— Nelson Vails,
Olympic Silver Medal Winner

"I used them for the USA Team in Los Angeles in 1984 and again in 1988 in Korea. . . They are the best."

Eddie B, Former USCF Coach

VITTORIA

Vittoria tires are widely ridden by professional and amateur cyclists around the world. Their tires are carefully woven from Egyptian long strand cotton for excellent agility and speed. Tread compounds are fast, durable and puncture resistant. Wide selection to choose from; six tubular models and two clincher models including the Oscar X foldable which is widely accepted as the world's fastest and most responsive clincher tire. Italy.

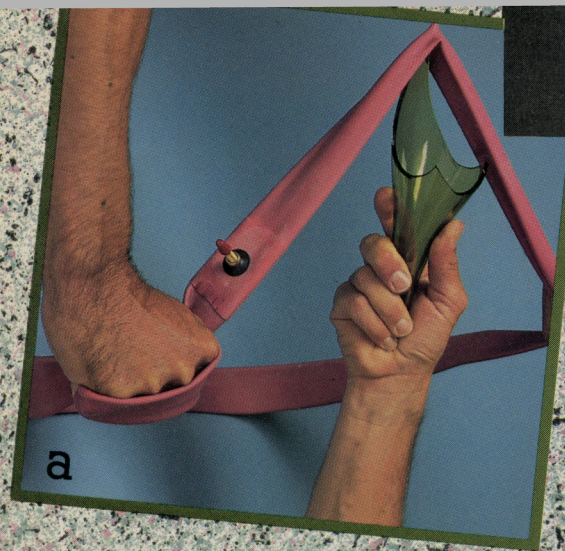

WOLBER

Wolber produces two excellent tubulars that are exceptionally durable and well suited for rough roads. The Invulnerable has a stainless steel mesh under its tread that effectively protects against glass and sharp objects. The Classic is a wide, comfortable and smooth riding tubular that is puncture resistant and an excellent value. France.

Note: Tire care accessories on the bicycle care page.

HOW TO GLUE TUBULARS

For New or Cleaned Rims:

Coat the rim with a thin layer of cement and let it sit for 24 hours. Then apply a second thin layer to the rim and let dry till tacky. Starting at the air valve and holding the wheel between your waist and an immovable object, forcefully stretch the tubular onto your rim. Air to 30 psi and carefully remove any glue from the sidewalls or rim. Let sit for one hour before riding.

On the road:

Just stretch a new tubular onto your rim and pump up to 110 pounds. The old glue will usually hold your tubular secure if you exercise reasonable caution.

Note: Always pre-stretch tubulars by storing on clean and dry tubular stretching rims.

TUBULARS OR CLINCHERS—WHICH IS BETTER?

Clinchers are lighter, faster and more responsive than ever. They are easy to fix, remarkably durable and widely used for training or fast riding. For optimal performance though, we recommend tubulars.

Tubulars contain a tube sewn within the tire's casing. They are lighter and will not slide on your rim like clinchers under hard cornering or in powerful sprints. Tubular rims too are lighter and stronger because they don't have to contain a tire's lip or tube. Thus tubular wheels are significantly faster and more responsive than clinchers.

Rims & Spokes

RIMS

Campagnolo

Fast responsive and extremely long-lasting. Easily builds into a strong and well balanced wheel. Constructed with an aerospace aluminum/zinc laminate and then heat treated and hard anodized for maximum rigidity and durability. Double ferrules are offset and angled, assuring you of perfectly straight spokes and evenly stressed nipples. Widely used by professional riders. Italy

SUN METAL

Mistral

American technology and craftsmanship at its best is clearly evident in Sun Metal's Mistral rims. Chosen by many top American riders because they are light, rigidly strong and build into a flawless and fast set of wheels.

Mistral rims are carefully extruded from 6063 aluminum-magnesium-silicon alloy and then immediately heat treated to Rockwell hardness T6 for superior strength. They are then meticulously machined and ultra hard anodized. The rim joint is epoxy bonded and balanced for even braking and smooth spinning.

Available in a wide variety of models for all types of riding conditions.

ASSOS

Designed for tough, professional racing, ASSOS uses a special aluminum magnesium alloy that is extruded into an isosceles triangle-shaped rim and then fully heat-treated. This in itself produces an exceptionally stiff rim, but ASSOS goes even further. They designed a unique hardened alloy nipple that fits snugly into the rim; it can't pivot like ordinary nipples in a ferrule, thus assuring you of the stiffest, strongest and most responsive wheel possible. Switzerland.

Note: ASSOS rims are drilled for specific spoke patterns. State spoke patterns when ordering.

SPOKES

DT

With DT spokes you can easily build a strong and responsive set of wheels. They are simple to true, extremely durable and 100% rust proof. We stock over 200,000 spokes in 57 different sizes. Since most wheel sets require 3 different spoke lengths we hand pick and carefully label your order. Switzerland.

14/15/14 Double Butted

Our most popular and strongest spoke. Resilient and durable, gives a smooth and responsive ride. Good for all rims and rider weights.

DT-BS-

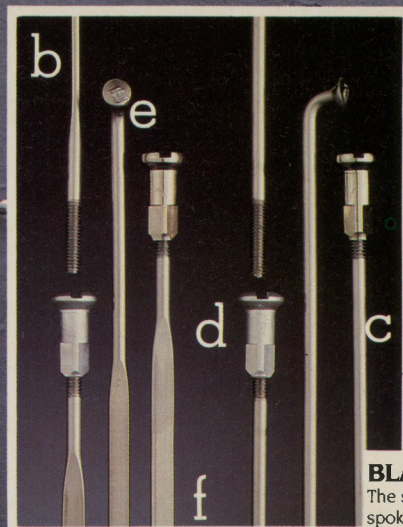

.39 ea. or 64/w nipples for \$24.88

14 Gauge Straight

Recommended for clincher wheels, heavy riders (200 lbs. +) and rough conditions.

DT-S4-

.25 ea. or 64/w nipples for \$15.88

BLADES

The strongest and most aerodynamic spoke available. Essential for time trials and triathlons; stiff enough for road racing and criteriums. Greater lateral and forward rigidity than oval or round wire spokes. Produces an exceptionally fast and responsive wheel. Stainless Steel.

DT-AS

\$.99

NIPPLES

ASSOS Alloy

ASSOS Alloy nipples and washers are useful if you are rebuilding an ASSOS wheel or rounded one when trueing.

AS-AN Nipple and washer .50 ea.

DT Alloy

As strong as brass but almost 50% lighter. Works best with ferruled rims.

DT-AL

.10 ea.

DT Brass

Lose a few nipples or round some when trueing? Available in 14 or 15 gauge.

DT-BR

.05 ea.

DT - THE CHOICE OF CHAMPIONS

DT blades are precisely pressed rather than rolled. Likewise their butted spokes are drawn instead of being cut on a lathe. Rolling and cutting alters and stresses the crystal structure of a spoke and often leads to premature failure. Pressing and drawing retains and actually strengthens crystal and molecular structure.

32 OR 36 SPOKES - WHICH IS STRONGER?

Logic dictates that more spokes should create a stronger wheel. However, symmetry is more important. 32 hole wheels have greater symmetry than 36; each spoke is equally and exactly opposed by another spoke laced in the opposite direction.

WHEELS HANDBUILT PACKAGES

Of the thousands of wheels we build yearly most fall into a few distinct categories. For your convenience we discounted our most popular wheels and listed them as fully built packages below. All are ready for shipping via fast and safe UPS. We will carefully pack your new wheels in custom built cartons and fully insure them against damage. Now you can order handbuilt wheels on Monday and be riding them on Friday.

WHEELBUILDING

Master wheelbuilder Gene Senner laces and trues most of our wheels. He carefully hand picks every spoke, preps their threads and meticulously weaves each into position. Each wheel is slowly tensioned, stressed and checked several times before tires are mounted. Then it is thoroughly checked once more for tension, dishing and trueness before packing and shipping.

Gene's wheels have consistently met with success in major races around the world including the Tour de France, Hawaiian Ironman and Coors Classic. Thousands of riders have benefitted from his skill and craftsmanship. Now you can too.

CUSTOM WHEELS/ REBUILT WHEELS

Need something special that we don't have listed as package? Or do you have an extra pair of hubs that you would like built into a new set of wheels? Pick out what you would like for components and add \$17.50 labor per wheel. If you are sending us used hubs, be sure to remove the freewheel and clip out all of the spokes.

PROFESSIONAL ADVICE

Call us with your wheel questions. Our experienced and professional staff is waiting to help. Phone (203) 488-0482 Mon. -Fri., 10-6

Campagnolo Chorus quick release skewers - front or rear.
CA-CH-(F/RS) \$19.88

Campagnolo skewer springs.
CA-SS 2 for \$2.88

Campagnolo track axles - complete with cones and locknuts.
CA-TR-(front or rear) \$29.88 ea.

CABLE MAINTENANCE TIPS

For maximum performance and safety, replace your brake and derailleur cables each year. Cables stretch and fatigue. Housing compresses and can bind against your cables causing dangerous wear and poor performance. For smoother shifting and crisper braking, use braided stainless steel cables. They are more flexible and smoother than standard twisted wire cables.

DERAILLEUR CABLES

STROH Stainless Steel Derailleur Cables
with stainless rear housing and ferrules. 2 cables and ferrules. Spain.
ST-DC \$6.88 set

Campy Derailleur Wires - front or rear
CA-DW(F/R) \$3.88 ea.

Campy Rear Derailleur housing white or stainless steel with ferrules. Italy.
CA-DH- \$3.88

BRAKE CABLES

Stroh
Slippery stainless steel braided cables slide through sharp aero routing bends. Flat wound and heat treated housing for minimal compression. Derlin liner. 49 strand cable. Cut long. Spain
ST-BC \$12.88 pr.
Colors: Black, white, yellow, translucent gray or blue.
Note: White comes with loose housing.

BRAKE HOODS

Campagnolo C Record/Croce/Chorus/Athena-White
CA-AT-BH \$19.88 pr.

Modolo - fits Super Record
Anatomically molded gum, gray, black, white.
MO-BH-(color) \$6.88 ea.

Shimano 600/Dura-Ace Aero-Black
SH-DA-BH \$6.88 ea.

Brake wires only
49 strand stainless steel wires - front or rear. England.
UL-BW-(front or rear) \$4.88 ea.

Campagnolo Brake Cables with silver or white housing
Flat wound steel. Front or rear. Italy.
CA-BC-H-(front or rear) \$7.88 ea.

Campagnolo Brake Wires - flat wound steel wires only. Front or rear.
CA-BW-(front or rear) \$3.88 ea.

BRAKE PADS

Campagnolo Athena/Chorus/Super Record
CA-BB- Black \$3.88 ea.

Campagnolo Croce/Delta
CA-DE-BB Black \$7.88 ea.

Modolo Sinterized Pads
Stops faster and smoother than all other pads. Slip-in pads fit Modolo and Campagnolo Athena/Chorus/Super Record.
MO-BB- \$3.88 ea.

BRAKE CENTERBOLTS

Campagnolo Athena/Chorus/Super Record
CA-SR-BKCR-(front or rear) \$14.88 ea.
recessed only

Recessed nuts for brake centerbolts
CA-AN \$6.88 ea.

DERAILLEUR PULLEY WHEELS

Campagnolo C Record/Croce
CA-DP-CR \$29.88 pr.

Campagnolo Athena/Chorus/Super Record
CA-DP-CH \$19.88 pr.

BALL BEARINGS FOR CAMPAGNOLO AND SHIMANO

Bottom Bracket - C Record retainer
CA-BB-CRBB \$6.88

Bottom Bracket - Athena/Chorus/Croce/Shimano
CA-BB-ATBB \$6.88

Headset - C Record
CA-BB-CRHS \$6.88

Headset - Athena/Chorus/Croce

CA-BB- \$7.88

AMERICAN CLASSIC REPLACEMENT PARTS

Front or rear ultra light skewers
AC-SK-(front or rear) \$14.88 ea.
Black

Sealed bearings for hubs or rollers
AC-HB \$14.88 pr.

Roller replacement belts - green.
TA-SB-LB \$9.88

TIRE CARE

Quick-fill

Much easier to use and more convenient than frame pumps. Just pop the CO2 cartridge onto your presta or schrader valve and the tire fills quickly. 16 gram cartridge gives 115 psi for 700/25 tires. USA.

QF-KIT \$9.88
2 16gr cartridges w/adaptor
QF-RC \$5.88
2 16gr replacement cartridges

Rema Deluxe Patch Kit

An excellent kit for patching butyl tubes. Contains easy to follow instructions, 7 patches, glue and emery board, all in a handy, reusable snaplock box. W. Germany.

CT-PK \$1.88
Spare Patches - Round, edged
patches for butyl or latex
BT-SP 4 for \$1.00

WORLD PRO

Deluxe Patch Kit

Everything you need to patch a tubular or clincher quickly and easily. Complete with steel thimble, needle and waxed thread, emery cloth, chalk, grease pencil, 12 tapered edge patches, two large canvas casing patches and 12 individual single tubes of glue. England.

BK-PK- \$5.88

Latex Sidewall Solution

Your tubular tires will last much longer if you occasionally wash them and then recoat the sidewalls with latex. Forms a thin tough coating that resists abrasions and casing oxidation. One jar gives 25 applications. England.

BK-SS \$4.88

Tread Stop

Tread Stop is a tough synthetic rubber compound used for sealing nicks and cuts in your tire's tread. Easy to apply, dries quickly. Extends tire life substantially. 85gr. tube. England

BK-TS \$2.88

Base Tape Cement

A specially formulated glue used for adhering tubular tire base tape after a repair is completed. Stronger than rim cement; firmly secures base tape to your tires casing. 85 gram tube. England.

BK-BT-G \$2.88

Tire Storage Rims

Tubulars and clinchers should be stored on clean, new rims in a cool, dark place before using. This allows the tread strip and casing to age and become tougher. Direct, damaging creases are eliminated and the tires are prestretched making final mounting much easier. State Clincher or tubular style.

RI-M(C/T) \$5.88 ea.
SAVE MORE! 2 for \$9.88

Care Rim Cement Remover

Comes in a 4 oz. can with an easy to use applicator. Pleasant smelling, safe to use; will not harm expensive sidewalls or aluminum finishes. USA.

CA-RE- \$4.88

FRAME CARE

Bike Elixir Cleaner

This special non-abrasive cleaner effectively removes grease, tar, oxidation, perspiration stains, brake marks and even some rim cements. Cleans, protects and enhances your bicycles finish. Safe for paint, chrome or aluminum. USA. 4 oz. applicator bottle.

BE-CL- \$3.88

Frame Wax

From the workshop of Dave Moulton comes this well designed non-abrasive frame wax. Easy to apply, dries clear, buffs to give a shiny, hard and protective finish. One jar-30 applications. USA.

DM-FW \$6.88

SILCA FLOOR PUMP

Quickly inflates your tires with a minimum of effort. Extra large, easy to read gauge, snug fitting brass chuck and an extra long hose. Italy.

SI-FP \$34.88

GENUINE SILCA PUMP PARTS

Presta valve brass chuck for disk wheels.

SI-BC-A \$14.88

Presta valve brass chuck for regular wheels

SI-BC \$9.88

High pressure leather barrel gasket.

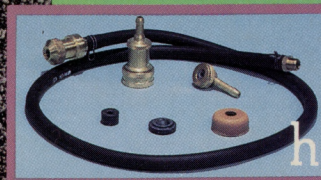

SI-LG \$5.88

Rubber presta valve gasket for brass chucks.

SI-RG \$2.88

High pressure replacement pump hose w/o chuck.

SI-FP-HOSE \$12.88

COMPONENT CARE

Campagnolo Grease

Expressly designed for competition bicycles and hard racing conditions. Actually displaces water and forms a thin film over bearings and machined races. Contains antioxidants to protect against rust and pitting. White, lithium based. Extremely long lasting. Italy.

CA-BG-TU \$6.88
2.5 oz. easy applicator tube

Phil Wood

Well designed waterproof grease in an easy to use tube. 85gr. USA.

PW-BG \$3.88

Bike Elixir Grease Gun

An easy to use lube gun that keeps your hands and grease clean. Pointed nozzle fits into hub bearing holes, freewheel backs, and hard to reach places with ease. Quickly displaces old grease and moisture without complete parts overhaul. USA.

BE-GG- \$12.88

Needle Nozzle Accessory

Over 4 1/2 inches long so you can easily inject grease into hubs and fixed cup openings. Threads on to the above grease gun.

BE-GG-NN \$7.88

Finish Line Grease

Heavy-duty formula for maximum protection and lubrication. An excellent quality, creamy white grease fortified with Teflon and Trilinium that completely resists water, prevents rust and extends bearing life. Will not separate or decompose. Easy to use, large applicator tube. 3 oz. USA.

FL-BG \$5.88

CHAIN LUBRICANTS

Campagnolo 08TH

Quiets noisy chains and smooths rough shifting. An excellent, simple to apply aerosol lubricant for chains, freewheels and brake and derailleur pivot points. Rapidly penetrates and coats parts with a tough slippery film of natural and synthetic oils. Strongly resists moisture and dirt. Regular use will significantly increase the life of your components. 150ml, gives you about 50 applications. Italy.

CA-CL \$12.88

FINISH LINE

Chain and Parts Degreaser

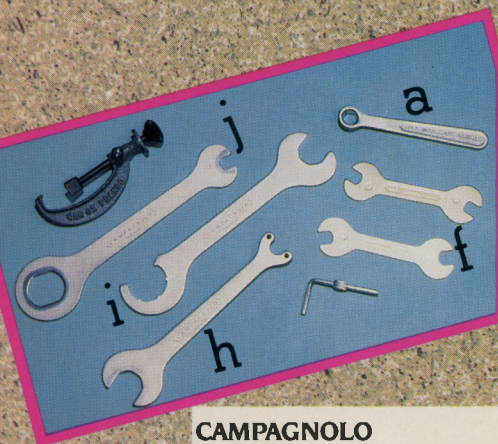

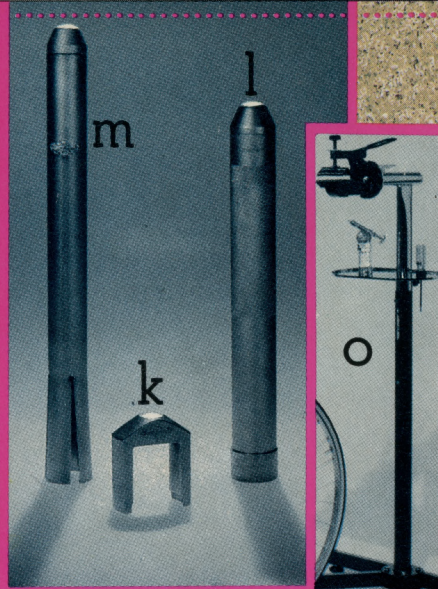

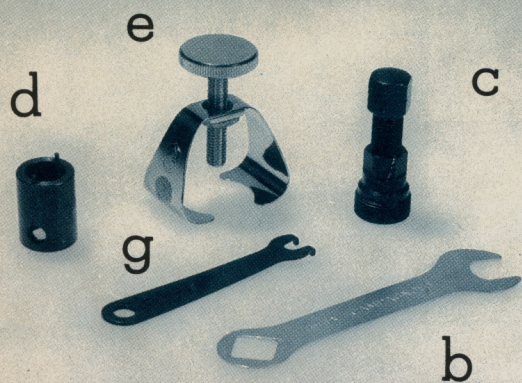

Finish Line cleaner spreads rapidly to quickly penetrate your chain's bushings. Dissolves, grease, gum, oil and dirt. Washes off easily with water. Will not harm paint or chrome. Complete with spray extension. 12 ounce ozone safe aerosol can. USA.

FL-DG \$6.88

Chain Lubricant

Quiets noisy chains like a hot paraffin bath. Quickly penetrates bushings, then evaporates, leaving a slippery, dry film of Teflon and Trilinium. 100% synthetic. Prevents oxidation, impervious to water, salt or road grime. 11 ounce ozone safe aerosol can. USA.

FL-CL \$9.88

CAMPAGNOLO ATHENA/CHORUS Crank Extractor

Heat treated chrome vanadium steel. Easily and quickly pulls your right or left crankarms. Use with below 15mm wrench for best results.
CA-AR-770 \$14.88

15mm Crank Bolt Wrench

Special narrow walled wrench fits the above extractor, all Campy 15mm crank bolts and track hub nuts.
CA-CR-15 \$12.88

C RECORD/CROCE Pedal Dust Cap Remover & derailleur idler wheel adjuster.

CA-CR-PDCW \$9.88

Reverse Threaded Crank Puller

Croce and C Record have a 7mm crank removal system. However, if that bolt snaps or rounds out this tool and the below dust cap remover are a must. Nice to have around as insurance also.
CA-CR-770 \$24.88

Dust Cap Remover

This little tool is essential for threading out Croce/C Record crank dust caps. Does a much neater job than a punch and hammer.
CA-CR-CDR \$24.88

Hub Dust Cap Puller

Effortlessly removes the aero dust caps on C Record hubs so you can adjust the cones and repack the bearings. Won't chew up your hub or crack the dust cover like screwdrivers or chisels will.
CA-CR-DCP \$24.88

FOR ALL CAMPAGNOLO GRUPPOS

Cone Wrenches

Double ended 13/14 or 15/16mm fit all Campy hubs. Heat treated chrome moly steel, polished heavy chrome finish. Set of two.
CA-CW-(size) 13/14 or 15/16 \$9.88 ea.

Chainwheel Bolt Spanner Wrench

Fits the back of all Campy chainwheel bolts so they don't spin around when you are trying to tighten or loosen them.
CA-CS- \$3.88

BOTTOM BRACKET TOOLS

Adjustable Cup Pin Tool/Headset Wrench
CA-71-21 \$24.88

Lockring tool/headset wrench
CA-71-2 \$24.88

Fixed cup/15mm pedal wrench
CA-71-3 \$24.88

CAMPAGNOLO FRAME TOOLS

Fork Crown Race Remover

Turn your fork upside down and slide on this tuning fork shaped tool. A few taps with a hammer and your crown race is off without marring your paint or chipping your fork crown.
CA-72-9 \$34.88

Crown Race Setter

Now that you have removed your old worn out crown race you will need to install a new one. A few taps with this slide hammer style tool is all it takes.
CA-73-0 \$34.88

Headtube Race Setter

This expandable tool easily and gently removes even soft aluminum pressed in headset cups without damage. Far superior to a hammer and long screw driver which will often chew up and deform your headtube.
CA-73-1 \$34.88

OFFICIAL FRAMEBUILDERS WORK COAT

If you ever met the great craftsman of Italian cycling you will recognize this jacket instantly. It is like the one worn by A.L. Colombo, Cino Cinelli, Tulio Campagnolo and Faliero Masi. The tradition continues today and this is the work coat of choice for Italian framebuilders. Well cut from medium weight cotton duck it has a snug tapered fit that is comfortable and trim. Cut long with deep side pockets for tools and a large breast pocket for papers and pen. Double stitched and hemmed, button down front. Made in Italy. Machine wash and dry.
TT-WC-(size) \$39.88

Silver gray w/ Triple T logo
M, L, and X-L

MINOURA PROFESSIONAL REPAIR STAND

Designed for shop or home use with professional quality bicycles. Rugged reinforced steel tubing, four adjustable feet, adjustable height and 360 degree pivotable head. Soft rubber jaws securely holds your bike and is notched for brake cables. Black epoxy-coated finish, chrome jaws and tool tray.
MI-WS- \$129.88

PARK TOOLS

Cable Cutters

Razor sharp hardened steel blades snip off cable ends without the usual fraying caused by diagonal cutters.
PA-CC \$14.88

Y Allen Wrench

Once you use this handy three way allen wrench, you will wonder how you managed without it. The vinyl coated "Y" shape gives just enough leverage to tighten bolts without stripping them. 4.5 and 6mm.
PA-AK-46 \$5.88

Y Socket Wrench

You will find 100 uses for this versatile and well designed tool. The three hardened steel, chromed sockets fit almost every nut on the bicycle while the two finely ground screwdriver blades are essential for adjusting derailleurs, tightening accessories, etc. 8.9 and 10mm sockets.
PA-YW-S \$9.88

10/13 Brake Centering Tool

A convenient and easy way to center your sidepull brakes. Neater than a hammer and punch.
PA-BT-1013 \$3.88

Spoke Wrenches

Inexpensive, durable and easy to use. Our favorite. Red for Japanese spokes, green for European and black for DT.
PA-SW-(color) \$3.88

Deluxe Cone Wrenches

Deluxe long handled, heavy blue vinyl coated cone wrenches for extra leverage and comfort. 13-14, or 15-16mm. USA
PA-CW-(size) \$3.88

Pedal Wrench

Fits all pedals. Extra long handle and wide grip allows you to remove even stubborn pedals without skinning your knuckles. 9/16 & 15mm. USA.
PA-PD-W \$10.88

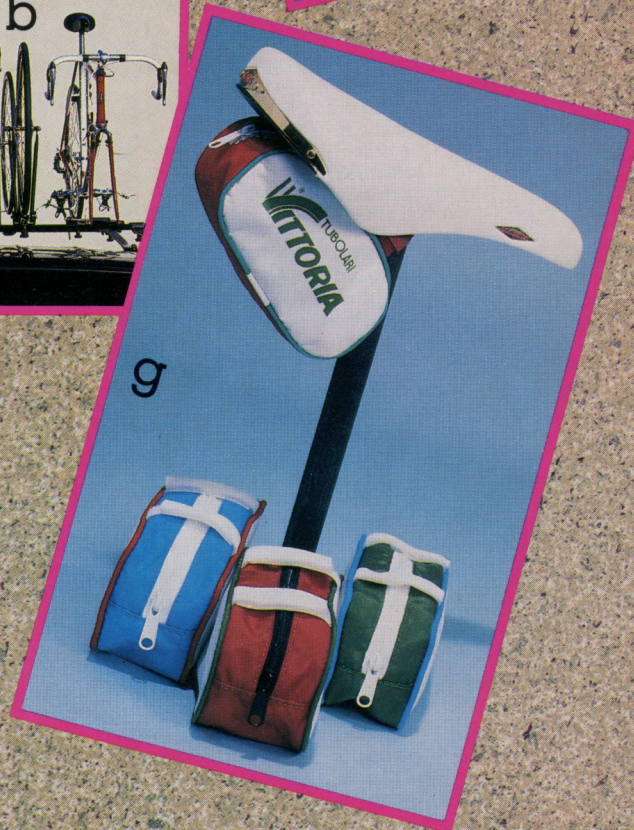

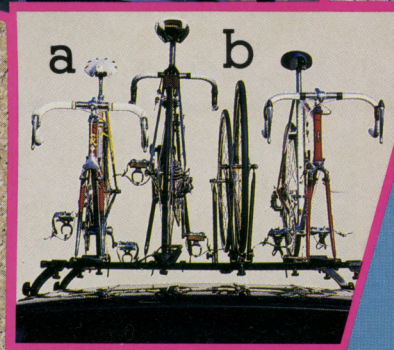

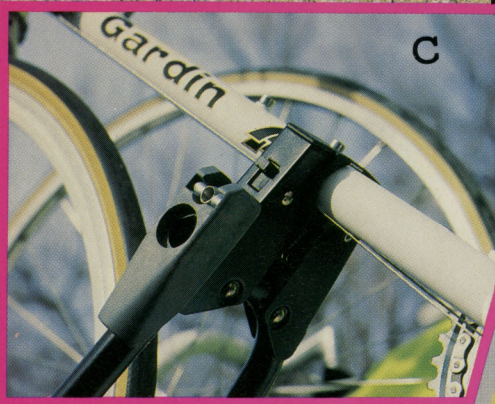

FREEWHEEL PULLERS

Fits Regina, Suntour, Maillard or Shimano Dura-ace. USA.
KI-TP-(model) \$5.88

For Campagnolo, photo on pg. 27

Special long and curved blades perfectly fit Campagnolo alloy freewheels. USA.
KI-FP-CAM \$19.88

Car Racks, Bags

THULE

A little company with a big idea that changed the way people all over the world used their cars. Thule invented the multi-purpose rooftop carrier. Their big idea changed their little company in Hillerstorp, Sweden into the largest multi-purpose roof rack manufacturer in the world.

Thule racks are easy to install, easy to use and seem to last forever. They are meticulously designed to fit 99% of all cars and trucks on the road today. Thule racks are versatile; they can carry bicycles, skis, canoes, kayaks, sailboards, lumber or just about anything you can put on top of your car. Best of all Thule racks are easily upgradeable and interchangeable. So when you change cars, you don't need to change racks.

535 - Fork Mount

Thule's redesigned classic fork mount has a short, adjustable rear tray and integrated tie down strap. Holds all tire widths; includes a mountain bike adapter. 36" minimum needed between rails. 4 kits will fit on a 50 inch rail, 5 on a 58 inch rail.

TH-BK-32 \$43.88

545 - Wheel Fork

Thule's new adjustable front wheel holder accepts any diameter wheel and folds down when not in use.

TH-BK-221 \$26.88

529 - Pro Fork Mount

Securely holds your bicycle by the front fork and rear wheel. Identical to the 535 except the tray is full length and works with any car roofline. Includes a mountain bike adapter.

TH-BK-22 \$57.88

549 - Ultimate Upright

A new and versatile carrier. One piece tray fits any car and holds any width tire; ratcheting clamps secure wheels. Soft, thermo plastic jaws will hold up to a 2" diameter downtube and have cable ready grooves to further protect your bicycles finish.

TH-BK-09 \$84.88

366 - Truck Rack

Thule precisely engineered this new user friendly, no drilling required, truck rack. It securely holds two bicycles by their front forks in your truck's bed. Tie down straps included to secure rear wheels. Adjustable for all bed widths.

TH-TR- \$103.88

555 - Faring

Reducing wind noise and increases gas mileage. Easy to install.

TRAVEL COVERS

Bike Pro

Snugly and securely covers and protects your bicycle from rain, dust, bugs, sun, etc. while traveling. Solid, wide velcro and drawstring closures. Tough, heavy-weight coated nylon. Two sizes fit all road bikes: 48 to 66cm. Machine washable. USA.

BP-TC-(frame size) \$69.88

Colors: Lime green or neon pink

Wheel Bag

Easily holds your front wheel, an extra rear wheel or a disc. Same durable heavy duty coated nylon fabric and construction as the travel cover. Zippered, 2 handles. USA.

BP-WB \$19.88

Colors: Lime green or neon pink

Slim Pack

Our sleek, slim seat pack tucks conveniently behind your saddle and seatpost or around your seat tube and seat lug. Smooth, aerodynamic and holds plenty. Two zippered pockets, secure triple velcro tie downs. Heavy coated nylon, waterproof. USA.

BP-TP- \$14.88

Colors: Black, bright lime and neon pink

TIRE BAGS

A practical little bag that mounts securely under your saddle and compliments the graceful lines and sleek beauty of your racing machine. Easily holds a spare tubular or clincher tire tube and basic tools. Waterproof, coated nylon.

VI-TB \$12.88

Models: Vittoria, Campagnolo, Shimano and Branford Bike

FREE THULE CATALOG

Official Thule catalog beautifully shows all the various kits and accessories they produce. FREE with any order or add \$2.00 for shipping if requested separately. Items listed in Thule's catalog but not ours, may be special ordered.

Power & Fuel

a

PROFILE FOR SPEED

a Piggyback Bottle Carrier

Easier to reach and more aerodynamic than standard frame mounted waterbottles. Holds one center or two side mounted bottles and quickly bolts behind any saddle. Includes a covered storage tray for tubes, tire irons, wallet, etc. Special curved bottom fits most transition area bike racks for quicker turn around time in races. Lightweight aluminum, anodized black. Uses braze-on cages: Not included. USA. PR-PB-

\$24.88

HED TAILS

Securely holds one or two water bottle cages behind your saddle. Unique mount fits any saddle and is adjustable for easier access. Clean design leaves room for a tire bag between your bottles. Black, complete with hardware and instructions. Uses braze-on cages: Not included. USA. HE-TA-

\$19.88

AMERICAN CLASSIC

Water Bottle Cages

Exceptionally light and strong due to a unique non-welded and furnace heat treated design. Tough and bright epoxy finish will not stain your bottles. Easy to install. Braze or clamp-on mounts. USA

AC-BC-(style, color) \$9.88 ea.

Colors: Black, yellow, silver, white, red and blue

TEAM BRANFORD BOTTLES

Ride with the winners with our new Team Branford bottles in hot neon pink or orange. Wide top accepts ice cubes and seals tight. Soft, squeezable plastic is odorless, tasteless and dishwasher safe. Easy pull, full flow nipple. FDA approved. USA.

SP-WB-20 21 oz. bottle \$2.88

SP-WB-27 28 oz. tall bottle \$3.88

EXCLUSIVELY BY MAIL

Many manufacturers are pleased with the professional manner products are displayed and sold through the Branford Bike catalog. They appreciate our consumer oriented policies and know their products will be properly serviced and warranted through us. Thus many manufacturers choose us as their exclusive bicycle mail-order seller.

FEED (MUSSETTE) BAGS

Originally designed to carry extra food and water for long distance racers, these versatile bags also conveniently hold spare tires, tubes, tools, etc. Constructed from heavy-duty cotton pack cloth and has a secure velcro closure. Machine washable. USA.

IG-MB- \$9.88

Models: Campagnolo, Shimano and Giro de Italia

PROMOTIONAL FEED BAG

Our promotional feed bag is designed to be used once or twice and then lost. Great for feeding your team mates during long road or stage races. Easily holds two water bottles, Power Bars, etc. Hot pink or neon green with Branford Bike logo. USA

BP-MB- \$4.88

e

BODY FUEL

750 - Power Drink

Bodyfuel 750 is a 100% natural high performance fluid replacing and carbohydrate loading power drink. Developed for the professional endurance athlete, Bodyfuel 750 has a balanced blend of maltodextrin and fructose which provides an even, sustained source of fuel. It empties from your stomach quicker than other carbohydrates and reaches your muscles faster. Pleasant tasting orange flavor. Low sodium and zero fat content. One can gives about 25 servings. USA.

BF-75-0 20 oz. can \$12.88

BF-75-OP \$1.25

Single serving trial size

100 - Fluid Replacer

During any prolonged strenuous activity, it is essential to replace fluids and electrolytes lost via perspiration. Bodyfuel 100 is 100% natural and has a clean light lemon/lime taste. It enhances performance, cuts dehydration and replaces essential vitamins and minerals lost in your workout. Low in sodium, zero fat and only 10 calories per serving. 12 single serving foil wrapped packets for maximum freshness and ease of use. Will not stain painted surfaces or corrode bottle cages like fruit juices often do. USA

BF-10-0 Box of 12 servings \$7.88

Computers, Heart Monitors

COMPUTERS

Avocet 30

Easy to read screen, two posi-click buttons and five colors make this our most popular cycle computer. Comes complete with batteries, a front wheel pickup and magnet, well written instructions and a five year warranty. Made in USA.

AV-BC-30 \$39.88

Colors: Black, white, blue, yellow and red

FUNCTIONS: Speed, maximum speed, total miles, trip distance, trip time, 12 hour clock and stopwatch

Avocet 50

Improve your hill climbing skills and endurance with Avocet's new model 50 cycle computer. Five new functions include trip climb, total climb, current evaluation, average speed and with an optional kit, cadence. Easy to read screen, simple two button operation. Complete with batteries, well written instructions and a five year warranty. Black only. Call for availability.

AV-BC-50 \$69.88

Optional Cadence Kit

AV-BC-50CK \$ 9.88

FUNCTIONS: Trip climb or descent, total climb or descent, current elevation, cadence, average speed plus all of the Avocet 30 functions.

CATEYE MICRO

A sleek trim computer that is easy to use and trouble-free. Simple two button operation. A large, easy to read screen gives constant speed and a selective readout of the seven most important functions including cadence. Excellent for training or racing. 100% waterproof and dustproof. Comes complete with battery and easy to follow instructions. Made in Japan.

CA-MI- \$44.88

FUNCTIONS: Speed, average speed, maximum speed, total miles, trip miles, trip time and cadence.

Cateye Vectra

Identical functions as the Cateye Micro but without the extra wiring and sensor for cadence. Easy two button operation. Large, multi-function display screen. Japan.

CA-VE- \$29.88

HEART MONITORS

To get maximum benefit from your workout you should train the way professional athletes do; with a heart monitor. Well designed heart monitors are wireless and easy to use and understand. The underlying concept is simple. Calculate a range in beats per minute for your heart according to your age and physical shape, program it into the heart monitor and then exercise. When you go above or below your programmed range an alarm will beep. Stay within your range and you get an excellent workout without over or under stressing your heart.

CIC - PRO TRAINER

A wireless, EKG true heart rate sensing unit designed for the serious athlete. The small and comfortable EKG sensor straps to your chest and transmits data to a wristwatch style monitor which also mounts on your handlebars. A high and low range can be programmed; a buzzer sounds when these limits are crossed. The quartz precision watch gives time of day, length of workout and stopwatch functions. When done, you may playback your workout and review: time above high range limit, time below low range limit and time within your range. Comes complete with batteries, a detailed workout guide and easy to follow instructions. Made in Finland.

CA-HM-8733 \$219.88

CIC - HEARTWATCH

The CIC Heartwatch is a very sophisticated unit that will give you the most accurate and comprehensive data possible regarding your heart rate and workout. A small EKG sensor straps to your chest and transmits to a full size wristwatch display that can also be mounted on your handlebars. With the Heartwatch you can: set high and low alarms, record your complete workout in 5 to 15 second intervals for up to 4 hours for future playback, set electronic markers for playback reference and even download your accumulated data into a PC computer. The Heartwatch also has full sports watch functions including a 24 clock, resettable alarms, stopwatch and timer. Complete with detailed, easy to follow instructions and batteries. Made in Finland.

CI-HM-HW \$299.88

CIC - PACER

A new wireless heart rate monitor that is identical to the Pro Trainer except it does not have a playback feature. Simple to use and comes complete with batteries, a helpful workout guide and well written instructions. Made in Finland.

CI-HM-P \$149.88

Handlebar attachment for Pro trainer and Pacer or Heartwatch

CI-HM- \$ 4.88

POSTMASTER: Deliver to Current Resident

Welcome to Branford Bike and our most extensive catalog yet.

Inside this and future issues, you will discover a wide selection of professional quality and race proven bicycle clothing and equipment from around the world. Leading manufacturers and products such as: ASSOS professional clothing, Carnac and Sidi shoes, Campagnolo and Shimano gruppos, Maza, Somec and Gardin handbuilt frames, Aerosport and HED carbon fiber components, American Classic ultralight seatposts, and hubs, Giro helmets, Grip-shift shifters, Oakley sunglasses, Profile for Speed hi-tech handlebars and our own professionally built wheelsets are now available to you through the Branford Bike catalog.

Before a product is allowed in our catalog, it is rigorously tested by our teams and then thoroughly reviewed. Relative merits such as: quality of materials and construction, ease of use and/or assembly, durability, manufacturers warranties and price are judged and graded. This lengthy process assures you that the products you purchase from Branford Bike are of the highest quality and represent the best value available today. Additionally, we protect you with our policy of "100% satisfaction guaranteed or your money cheerfully refunded."

Our regular customers already know that no one fills orders and ships faster than Branford Bike. 97% of all orders are shipped within 12 hours, the balance within 24 hours. You won't pay extra for this speedy service either. In fact, our shipping rates are the lowest of all the major bicycle mail order catalogs.

Become a steady customer and your benefits will continue to increase. You will receive "Preferred Customer" monthly sale cards which give you rock bottom prices on brand name products and advance notice of new items. Your other benefits include a private, never busy, toll free 800 order line, preferential order processing and automatic free yearly renewal of your catalog subscription.

So whether you choose us because of our wide product selection, rigorous testing program that assures you of outstanding quality and value, speedy order processing and low shipping rates or for the multitude of benefits you can gain as a steady customer, we hope we will hear from you soon.

As a special favor, Tom and I will give you: "Preferred Customer" status and all the resultant benefits if you place an order within the next 30 days.

Yours in cycling,

Tim & Tom Brockett
